

Let's get started.

1 Plug in HDMI and power cords, then connect to power source.

Portal TV will turn on automatically.

Plug HDMI cord into an input on your TV. For best results use HDMI 1.

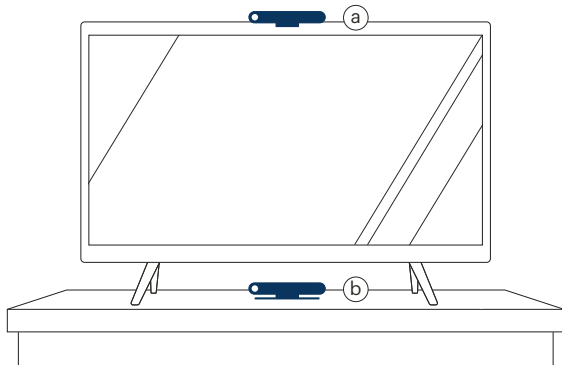

Turn on your TV and select the input.

2 Find the right place for your Portal TV.

May be mounted on top of your TV (a) or placed on a flat surface underneath (b).

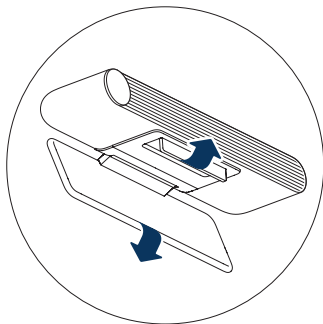

Avoid placing directly on top of a speaker or sound bar.

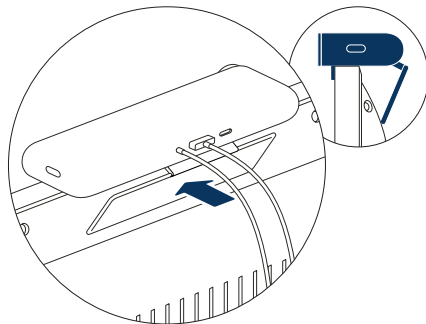

3

For TV mounting, open the small front clip and larger back clip.

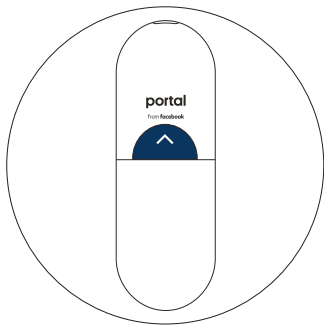

Rest the front clip against the front of your TV frame. At the same time, press the front clip against the front of your TV frame and back clip against the back of your TV.

**4**

To make sure Portal TV is secure, press back clip firmly against the back of your TV.

- 5** Remove plastic battery tab on the back of remote control.

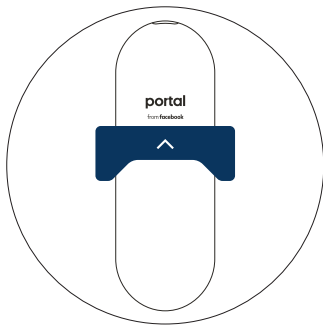

- 6** Press select button to pair the remote to Portal TV.

Follow on-screen steps to finish setup.

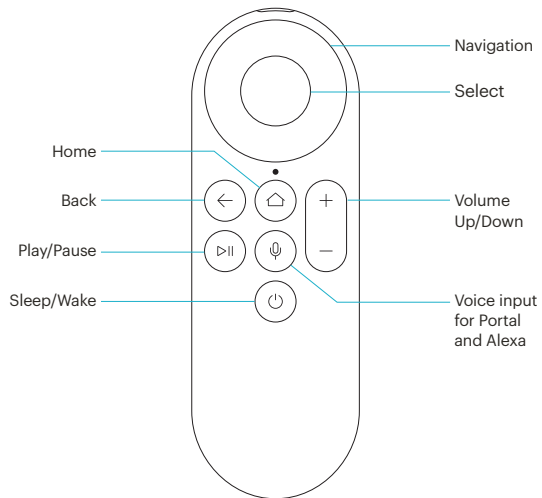

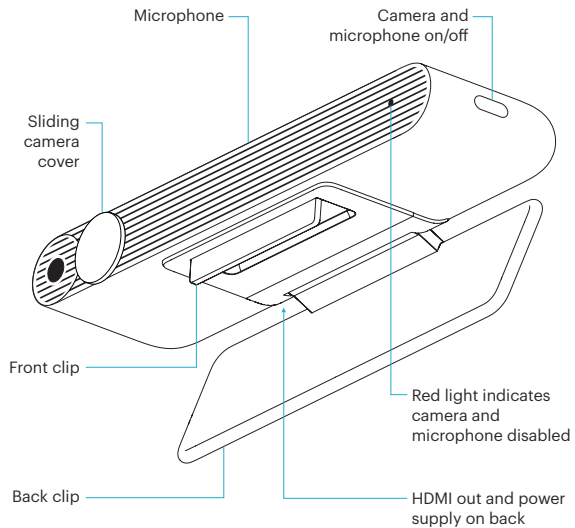

- 5** Remove plastic battery tab on the back of remote control.

- 6** Press select button to pair the remote to Portal TV.

Follow on-screen steps to finish setup.
