

## Declaration Letter

The purpose of this C2PC change request is to modify the Anelto, Inc. certification for FCC ID: 2AGPI-ANH0320V to allow for operation in a portable RF exposure condition while in an Anelto, Inc. host.

Additionally, for portable RF conditions only LTE bands 2, 4 & 13 will be activated while in the Anelto, Inc. host, model EC25AF. A SAR configuration was evaluated with the module in the Anelto, Inc, host Model EC25AF.

The original grant had allowance for an antenna of at least 5dBi in all bands. The maximum antenna gain used in the host (EC25AF) is -2.5dBi for any band. Therefore compliance to the radio aspects of the original module has been maintained.

We, Anelto Inc declared that our product, is identical inside, the electrical circuit design, layout, components used and internal wiring to device already approved for mobile conditions under the FCC ID: 2AGPI-ANH0320V.

Sincerely yours

A handwritten signature in blue ink, appearing to read "Scott Constien".
