

## Narrative Clip2 User Manual

There is no enclosed user-manual in the Clip2 box, instead we provide a paper sheet with the link to [start.getnarrative.com](http://start.getnarrative.com), our web-site where we show how the user should download the companion mobile app to iOS or Android.

When creating the account in the app, the user is shown the “user manual” below, as a series of screens, showing how to use the device. It is really simple.

Similar instructions are on [start.getnarrative.com](http://start.getnarrative.com):

YOUR CLIP

### Full HD Wearable Camera

The Clip is always on and automatically takes a photo every 30 seconds. You will have to charge your Clip before first use.

Recording a Video

To start a recording give your Clip firm double tap, by default it will shoot a 10 second video.

Turning it Off

When the Clip is placed face down or in total darkness, like a pocket or a bag, it stops taking photos.

Charging the Clip

Charge the Clip using a computer or a power outlet. The Clip takes up to 60 minutes to fully charge.

## FCC Warnings

### 15.19

ꝝ This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### 15.105

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
—Reorient or relocate the receiving antenna.  
—Increase the separation between the equipment and receiver.  
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
—Consult the dealer or an experienced radio/TV technician for help.

### 15.21

ꝝ Any changes or modifications not expressly approved by the party responsible for compliance could void the authority to operate equipment.  
ꝝ This device and its antenna must not be co-located or operating in conjunction with any other antenna or transmitter.  
ꝝ End-users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.  
ꝝ For product available in the USA/Canada market, only channel 1~11 can be operated. Selection of other channels is not possible
