Instructions

According to individual demand, try different dimensions of ear caps (large, medium and small size), to match with ears properly to ensure high quality bass effect.

According to individual comfort, rotate the ear hook and earphone to adjust angle to achieve the most comfort and stability.

Round the earphone behind your neck to achieve comfort and pleasure.

You can choose to use the cord according to personal demand and adjust the length of wire.

Turn on and charge:

When the first time you use this new earphone, press the multi-functional button 9, the indicator 7 (which is between button 8 and 9) shines blue, then shines blue and red by turns, then release button 9 and go into matching mode. Open the Bluetooth device in the cellphone and set it to "search for new devices", find and choose KS082. Please enter the password (0000) if necessary or accept the connection.

There are enough electricity for new earphone to support you to finish matching and have some phone calls for first use.

When the battery is low and it needs charging, open the cap on the surface 6 and turn it upside, and plug into USB. Charging time for the earphone is around 2.5 hours, and the indicator turns red when charging, turns blue when finish charging. Please do not use this product during charging.

The battery will die down if the earphone is charged and discharged over and over, and this is normal for all rechargeable batteries. if the product is not used for a long time (e.g. more than one year), please charge it fully before store.

Main functions

Turn on ---matching : long press 9, indicator 7 shines blue----alternate blue and red, start to match when hear the beep and find KS082.

Turn off : long press 9, indicator 7 shines red----dies out, already turn off when beep.

Play/pause: short press 9

Last song: long press 8
Next song: long press 10
Volume- : short press 8
Volume+: short press 10

Switch between cellphone and earphone

Three-way calling switch :

- ◆ Pick up the second call and hang up the first one, short press 9.
- ◆ Pick up the second call and wait for the first one, double press 9.
- ◆ Switch the first and second call, double press 9.
- ◆ Hang up the current call, short press 9.

Matching two cellphones at the same time

In paired state:

Start two cellphones connection:

Long press 9 and 10 at the same time.

Turn off two cellphones connection:

Long press 9 and 8 at the same time.

Two cellphones match with KS082 separately (When matching the second cellphone, turn off bluetooth of the first cellphone).

Turn off KS082, open bluetooth of two cellphones.
Turn on KS082, KS082 automatically connects with the last two cellphones at the same time, which have been matched.

Once your cellphone successfully matches with KS082, when you restart it, it will automatically connect the last two cellphones. But some cellphones need authorization to connect, it depends on your own cellphone.

When your cellphone matches successfully with KS082, you can short press multi-functional button 9 to automatically connect the last two cellphones, if you haven't restarted the power supply.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
