

Firefly2 User Manual

Device Guide

Charging

- Use included USB cable to connect charging dock to a USB port.
- Place Firefly2 on the charging dock: the LED light blinks blue when charging and turns solid blue when fully charged.

- Leave Firefly2 on charging dock when not in use.

LED Behavior

Blinking Green: Firefly2 is heating.

Solid Green: Firefly2 is ready to use.

Blinking Blue: Battery is charging.

Solid Blue: Battery is charged.

Blinking Red: Battery is low and needs charging.

Solid Amber: Firefly2 needs to cool down for a few minutes.

Vaping Loose-Leaf

- Remove the magnetic lid by lifting up on either side.

- Use hand-torn or coarsely-ground material.

- Loosely fill the glass chamber slightly past the rim and tamp down gently.

- Ensure the interior surfaces are completely free of debris for a tight seal.

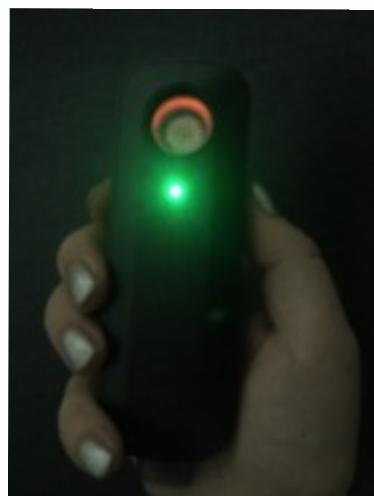

Yes

No

- Replace the lid and make sure it is seated correctly.
- Touch and glow. Place fingers on both touch sensors to start heating.

- **IMPORTANT:** Place fingers lightly on touch sensors (as if you are tapping a smartphone), *do not* press down or use excessive force.
- The LED will blink green for a few seconds and turn solid green when it's ready. Watch for the glow! (video)

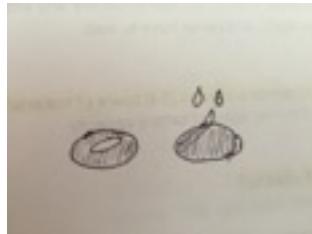

- Keep fingers in place and inhale for 5 - 10 seconds. (video)
- Release touch sensors to stop heating.
- For a denser vapor, inhale more deeply for a few more seconds. If your vapor is still too thin, reset the lid.

Vaping Concentrates:

- For optimal concentrate use, download the Firefly app and use the “Concentrates” setting.
- Place concentrate pad in heating chamber and press firmly into the bottom of the bowl.

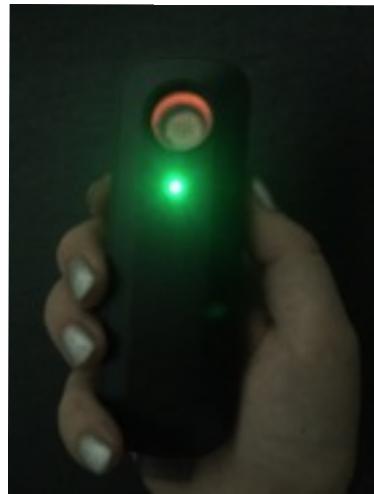

- Place small amount of concentrate material on the center of the pad. A little goes a long way!
 - * Solid: about the size of a grain of rice
 - * Liquid: 2-3 drops

- Replace the lid and make sure it is seated correctly.
- Touch and Glow! Place fingers on touch sensors to start heating.

- The LED will blink green for a few seconds and turn solid green when it's ready.
- Continue to hold the touch sensors while taking 5 to 10 cigar style mouth puffs (video)

- After initial heating, return to normal inhalations.

Cleaning

Bowl:

- Only clean when cold
- Use tooth pick to pick out larger particles and swipe clean with alcohol wipe.
- Allow to dry completely before vaping.

Vapor Path:

- Wipe down glass vapor path on the body and the lid with alcohol wipes.
- **IMPORTANT:** wipe surface of top lid gently to avoid damaging the gasket.

Mouthpiece

- Hold Firefly2 in one hand and push mouthpiece to one side with other hand. Wiggle left and right until removed.

- Remove particulate with enclosed cleaning pick.

Concentrate pad removal:

- Material in the pad can become sticky. Pre-heat the Firefly for 10-15 seconds to loosen any extra material and then use the pick from the cleaning kit to pry up the edges of the pad and remove.
- Cleaning the concentrate pads is not recommended.

Battery Swapping

- To check battery level, tap the right touch sensor three times quickly and watch the LED indicator.

Blinks Red: Battery is low and needs to be charged

One blue blink: ~10% charge

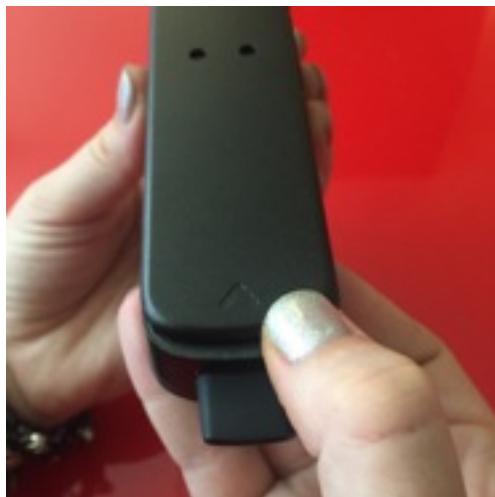

Two blue blinks: ~25 % charge

Three blue blinks: ~50% charge

Four blue blinks: ~75 % charge

Five blue blinks: 100% charge

- Remove the battery door by pushing forward at the arrow.

- Insert battery into compartment and slide cover back into place.

- Replace battery door: place door on the back side of the Firefly2, with the arrow side closest to the mouthpiece, positioned just above the edge of the Firefly2. Press down from top to click into place.

Caution: Since the battery cover is removable, Label will be affixed to the inside of the battery.

We, state that our device has a battery, but the battery will not be placed in the battery compartment when delivery, it is visible to the users as they purchase the products and install the battery. The back cover can be moved away, there is not enough space to print FCC ID label in surface of products, so the label has to be placed in battery compartment.

Safety

Use only Firefly cleaning implements
Never place the Firefly chassis in liquid
Clean the Firefly only when it is cool

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Environmental Conditions:

Working Temperature 0 ~ 50°C
Working humidity 65+/-20%RH

Hereby, NWT Holdings LLC, declares that Firefly2, is In compliance with the essential Requirements and other relevant provisions of Directive 1999/5/EC.
Environment friendly disposal

You can help protect the environment!
Please remember to respect the local regulations:
hand in the non-working electrical equipments to
an appropriate waste disposal centre.
