7th January 2016

FCC ID: 2AGVJ-ANNELANING1

SUBJECT: USB Port Attestation

To whom it may concern

This letter is to advise that the USB port on the device with the FCC ID described below is not intended to be used during normal operations.

The intended use of the USB port is for future software upgrades that are carried out by the user in the event of bugs being found.

It has also been provided in case features or capability are added to the device in the future.

If the USB port is required for normal operations, in the future, certification as a FCC Part 15 computer peripheral will be addressed as laboratories in New Zealand Laboratories are currently unable to offer Declaration of Conformity testing.

Yours sincerely

A handwritten signature in black ink, appearing to be "Alex Findlay". The signature is fluid and stylized, with a large loop at the beginning and a long, sweeping stroke that ends in a small hook.

Alex Findlay
Director
