## **Step-by-Step Instructions for Connecting Your Robot to the WiFi**

1. Turn on smart phone and access the app store of your choosing.
2. Find the Jackson app on the store and install it on your phone.
3. Make sure that Bluetooth is On.
4. Open the app on your smart phone and locate the Pairing Settings.
5. Turn on your robot.
6. Once in the Pairing Settings, search with the app for nearby BTLE signals.
7. Select your robot in the app to pair with it.
8. Congratulations, you've now connected to your robot!
9. Locate the WiFi settings in the general settings on the app
10. Once you've found these settings, configure your WiFi
11. To configure your WiFi, select the SSID of the WiFi that matches yours, and enter your password.
12. Congratulations, you have connected your robot to the cloud!
13. Learn how to code with this robot and eventually take over the world.

***This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation***

***NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:***

- Reorient or relocate the receiving antenna.***
- Increase the separation between the equipment and receiver.***
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.***
- Consult the dealer or an experienced radio/TV technician for help.***

#### **FCC Part 15.21 Statement**

Changes or modifications made to this equipment not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
