

## Model Difference Letter for family certification

Dear application reviewer. This document contains differences between ASB2 & AMB

Aina Smart Button 2 (ASB2)

Aina Multifunction Button (AMB)

On the left side is a picture that shows the mechanical differences between ASB2 & AMB.

Multifunction Button has an extra button and front cover is also different compared to ASB2.

Another difference is the product software. AMB has different software since it has an extra button.

RF functionality is identical with both models since they have the same PCB

Aina Smart Button 2 (ASB2)

Aina Multifunction Button (AMB)

Here you can see the difference in mechanics from the internal point of view.

PCB, back cover and battery cover is the same in both models.

I hereby confirm that these informations are correct.

Jukka Porkka

A small, rectangular image showing a handwritten signature in dark ink on a light-colored background. The signature appears to be 'Jukka Porkka'.
