Solder Board-Component View 2	 A photograph of a blue printed circuit board (PCB) with several large, rectangular silver solder masks applied to it. The board is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the board, showing measurements in millimeters. The ruler markings range from 0 to 200 mm.
Solder Board-Component View 3	 A photograph of a blue printed circuit board (PCB) with various electronic components and solder joints. The board is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the board, showing measurements in millimeters. The ruler markings range from 0 to 200 mm.

Solder Board-Component View 4	 A photograph of a blue printed circuit board (PCB) assembly, labeled 'Solder Board-Component View 4'. The board is populated with various electronic components, including integrated circuits, capacitors, and connectors. It is positioned next to a black ruler with white markings for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The background is a blue textured surface.
Solder Board-Component View 5	 A photograph of a blue printed circuit board (PCB) assembly, labeled 'Solder Board-Component View 5'. This board is narrower and features a series of components along its length, including what appears to be a connector at one end and several small components along the top edge. It is positioned next to a black ruler with white markings for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The background is a blue textured surface.

Solder Board-Component View 6	 A photograph of a blue printed circuit board (PCB) component, likely a solder mask or a small antenna module, placed on a blue textured surface. The component is rectangular with several gold-colored pads and solder points. A black ruler with white markings is positioned vertically on the left and horizontally at the bottom for scale. The vertical ruler shows markings from 10 to 100 mm, and the horizontal ruler shows markings from 10 to 200 mm.
Antenna View	 A photograph of a disassembled mobile phone showing the internal components. The top cover is removed, revealing the battery, main board, and various antennas. Red lines and boxes highlight specific antenna locations, which are labeled as follows: - LTE RX Ant. (top left) - GSM/WCDMA/LTE (top right) - NFC Ant. (bottom left) - GPS Ant (bottom center) - Wi-Fi/BT Ant (bottom right) A black ruler with white markings is placed vertically on the left and horizontally at the bottom for scale. The vertical ruler shows markings from 10 to 100 mm, and the horizontal ruler shows markings from 10 to 200 mm.
