

Solder Board-Component View 9	 A photograph of a complex printed circuit board (PCB) assembly, likely a mobile phone motherboard, showing various components such as chips, capacitors, and connectors. The board is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the board, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A vertical ruler on the left side of the board shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The board features a large central chip, several smaller chips, and various connectors, including a USB port and a SIM card slot. The board is labeled with "Solder Board-Component View 9".
Solder Board-Component View 10	 A photograph of the same printed circuit board (PCB) assembly as in View 9, showing a different perspective. The board is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the board, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A vertical ruler on the left side of the board shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The board features a large central chip, several smaller chips, and various connectors, including a USB port and a SIM card slot. The board is labeled with "Solder Board-Component View 10".
