| <p><b>Solder<br/>Board-Component<br/>View 3</b></p> |  A photograph of a blue printed circuit board (PCB) component, identified as MD1865-CB-V10, with a date code of 2022-10-13. The board is positioned horizontally against a blue background. A black ruler with white markings is placed below the board, showing measurements in millimeters. The board features various electronic components, including a series of gold-plated pins along its top edge, a small white component labeled 'SPK', and a connector on the right side. The text 'MD1865-CB-V10' and '2022-10-13' are printed on the board. |
| <p><b>Solder<br/>Board-Component<br/>View 4</b></p> |  A photograph of the same blue PCB component from a different perspective. The board is positioned horizontally against a blue background. A black ruler with white markings is placed below the board, showing measurements in millimeters. The board features various electronic components, including a series of gold-plated pins along its top edge, a small white component labeled 'SPK', and a connector on the right side. The text 'MD1865-CB-V10' and '2022-10-13' are printed on the board.                                                 |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component<br/>View 5</div> |  A photograph of a small electronic component, likely a solder mask or a small PCB, placed on a blue textured surface. The component is rectangular with a green base and a white square in the center. It has several small components and a gold-colored pad. A black ruler with white markings is visible on the left and bottom, showing measurements in millimeters. The component is positioned near the 10 mm mark on the ruler. |
| <div>Solder<br/>Board-Component<br/>View 6</div> |  A photograph of the same electronic component from a different angle, showing the underside. The component is rectangular with a green base and a white square in the center. It has several small components and a gold-colored pad. A black ruler with white markings is visible on the left and bottom, showing measurements in millimeters. The component is positioned near the 10 mm mark on the ruler.                         |
