**Tips and Precautions**

Please fully assemble the AWCB-1004 before placing in your car. Most states allow drivers to mount a phone inside their car as long as it doesn't get in the way of their ability to drive safely. Please check local laws before attaching to dashboard or windshield.

- Keep these instructions.
- Do not drop, puncture or disassemble this product.
- This product should not be exposed to dripping or splashing.
- Avoid long exposure to direct sunlight, which may cause damage.
- Do not use the product in a strong magnetic field.
- Use a clean, soft cloth to clean. Do not use any corrosive cleaners/oils to clean.
- Keep your attention on the road. Do not operate the controls of this product while driving.
- Read all the instructions before using the product, and use the product as intended.
- Secure and adjust before driving. Do not adjust while driving.
- Keep close supervision of this product if being used around children.
- Do not expose to rain or moisture and do not use near water.
- Do not expose to extreme heat sources. Do not dispose of in a fire.
- Do not place metal items on the surface of the product.

- Do not cover the product with paper or other materials. Use in a well-ventilated area when charging.
- Wireless chargers generate heat when charging, and the charger may temporarily stop charging if it gets too hot.
- Do not disassemble, modify, or try to use for a non-intended purpose, and do not use if damaged or modified. Never insert objects other than the specified cables into the product.
- Do not place magnetic strip cards or similar magnetically sensitive item between the phone and the charger. Wireless charging uses magnetic induction that could damage these items.
- Multiple Qi devices cannot be charged at the same time.
- Disconnect the USB cable from the USB power source if not in use or once the phone is fully charged.

**Introduction**

- Features
- Wirelessly charge and access your smartphone handsfree
  - Universal compatibility with all wireless charging enabled phones
  - Includes 3ft. cable to power wireless charging

**Included:**

- Wireless Charging Phone Mount with adjustable extender arm
- 3ft Power Cable
- Cord Clip
- Adhesive Suction Disc
- Manual

**At a Glance**

**Get Started**

**Assembly:**

- Place suction mount on a flat surface with orange knob positioned on the right.
- Turn knob on the suction mount counterclockwise to loosen.
- Holding the extender bar horizontally, insert it into the suction mount by pushing its ball joint down into the top of the suction mount's collar.
- Position the extender bar at the desired angle and tighten suction mount's orange knobs 6 to 10 turns to hold extender bar securely in place. (Please be sure not to over tighten the screw).
- To place the smartphone mount onto the base, remove the screw on the back of the mount by turning it counterclockwise until it is off the mount. Place the screw onto the ball joint of the extender arm instead. We will use this later to tighten the smartphone mount to the extender arm.
- Once the screw is loosely on the base, you will take the smartphone mount and snap it onto the ball joint. Adjust the angle of the smartphone mount and then tighten the screw on the back of the mount in the grooves.
- Your mount is fully put together now. If you need to readjust any angles, just loose either screw or knob, adjust, and tighten again.
- Plug the USB-C cable (included) into the wireless charging mount's USB-C port which is located on the underside of the mount behind its adjustable foot).

**Mounting on the Dashboard:**

- Make sure to choose the flattest area on the dashboard that doesn't obstruct your view of the road and your surroundings while driving.
- Make sure to choose the flattest area on the dashboard that doesn't obstruct your view of the road and your surroundings while driving.
- Clean the area with a clean cloth.
- Remove the clear film from the base of the suction cup.
- Mount the suction phone mount on your dashboard.
- Method 1: Open the release latch on the front of the suction mount's base by pulling it upward. Place mount on dashboard. Close the latch by pushing it back down, to secure the mount to the dashboard. This should make a strong connection.
- Method 2: If the dashboard is too curved, or if the vinyl surface is deeply patterned, use the included suction disc. Peel the protective cover off adhesive of the and stick it to the dashboard. Note that this permanently sticks this disc to your dashboard.
- Open the release latch on the front of the suction mount's base by pulling it upward. Place the mount on suction disc and close latch.
- To adjust the viewing angle, you can adjust the position of the mount by loosening the knobs and rotating each ball joint, and then tightening the knobs again.
- To power the wireless charger plug the USB-A connector on the cable into a USB-A power port such as the vehicle's USB power output port, or USB vehicle power adapter. (Requires power to charge your device)
- To use included cord management clip, peel protective coating from back and adhere to desired position. Feed cord through it.

**Mounting on the Windshield:**

- Make sure to choose an area on the windshield that doesn't obstruct your view.
- Clean the windshield area with a clean cloth.
- Remove the clear film from the base of the suction cup.
- Open the release latch on the front of the suction mount's base by pulling it upward. Place mount in your desired location on windshield. Close the latch by pushing it back down, to secure the mount to the windshield. This should make a strong connection.
- To adjust the viewing angle, you can adjust the position of the mount by loosening the knobs and rotating each ball joint, and then tightening the knobs again.
- To power the wireless charger plug the USB-A connector on the cable into a USB-A power port such as the vehicle's USB power output port, or USB vehicle power adapter. (Requires power to charge your device)
- To use included cord management clip peel protective coating from back and adhere to desired position. Feed cord through it.
- To remove the mount from the windshield, open the release latch on the front of the suction mount base by pulling it upward. Then then pull up on the tap on the back of the suction cup.

**Charging your Phone**

- Press the oval button on the back on the back of your charger to release the arms. Fully expanded it will fit phones up to 3.6 inches wide in cases. Pull down on the foot to fully extend.
- Place the phone on the foot and adjust its position to center your phone at the center of the charger where the wireless icon is located. Manually close arms to securely hold the phone in place.

- The phone will begin charging if the mount is connected to USB power and the phone is aligned properly with the wireless charger. (The charging icon will be displayed on your phone screen when it is being charged)

**Note:**

• Wireless charging will only work with Qi wireless charging compatible devices. If your phone is not a Qi wireless charging compatible, you will need to connect a regular charging cable to your phone for wired charging.

• Wireless charger works with most phone cases. However very thick phone cases can obstruct wireless charging. For effective charging, it may be necessary to reposition the phone or remove the case.

**CAUTION:**

- To prevent damage to the phone or the charger.
- Remove metal cases, or cases with any magnet/metal components, from phone before charging.

- Do not place metal objects on the charger during charging.
- Qi wireless chargeable phones with metallic locking finishes will charge normally.

**Specifications**

10W Input: DC 5V/  
Output: 5W/10W

**FCC STATEMENT:**

This device complies with Part 15 of the FCC Rules, operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**WARNING:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

**ONE YEAR WARRANTY**

Xtreme, official licensee of Armor All® warrants its products for ONE YEAR against defects in manufacturing under regular consumer use with original record of retail purchase.

We believe in our products and want to provide you with a replacement, if needed, but we have to know about the problem while the product is still under warranty. If you discover a defect covered by this warranty, please contact us about receiving a replacement. In order to use the product's warranty the customer must provide proof of the retailer's receipt.

\*Any customers outside of the U.S. will be responsible for shipping and handling charges if a replacement is required that is not due to a manufacturing defect. If there is not a manufacturing defect, shipping and handling will be applied.

Xtreme's warranty is limited to our products only. Our warranty does not cover the replacement or repair cost of any third-party accessory, electronic device or personal property.

For instructions about how to obtain warranty service for your product, please contact Customer Service at info@ArmorAllElectronics.com.
