

Wireless Charging Desk Lamp

Technical Specifications

Product name: Multifunctional wireless charger

Input: DC 5V/3A 9V/3A

Output: DC 15W/10W/7.5W/5W

Dimension: 130x250x430mm

Power supply distance: ≤ 8 mm

Bluetooth audio: 5W

Desk lamp power: 3.5W

Light mode: Three modes

Features

- Wireless charging – simply place on the charging pad to begin
- Adjustable arm – set the light angle with ease
- Adjustable Colour Temperature – switch between Cool White, Daylight & Warm White
- 1M USB Charging Cable Included

SAFETY NOTICE

Any modifications to this product should be carried out by a licenced electrician. Failure to wire correctly may result in electric shock, injury, or a fatality to yourself or a member of your family.

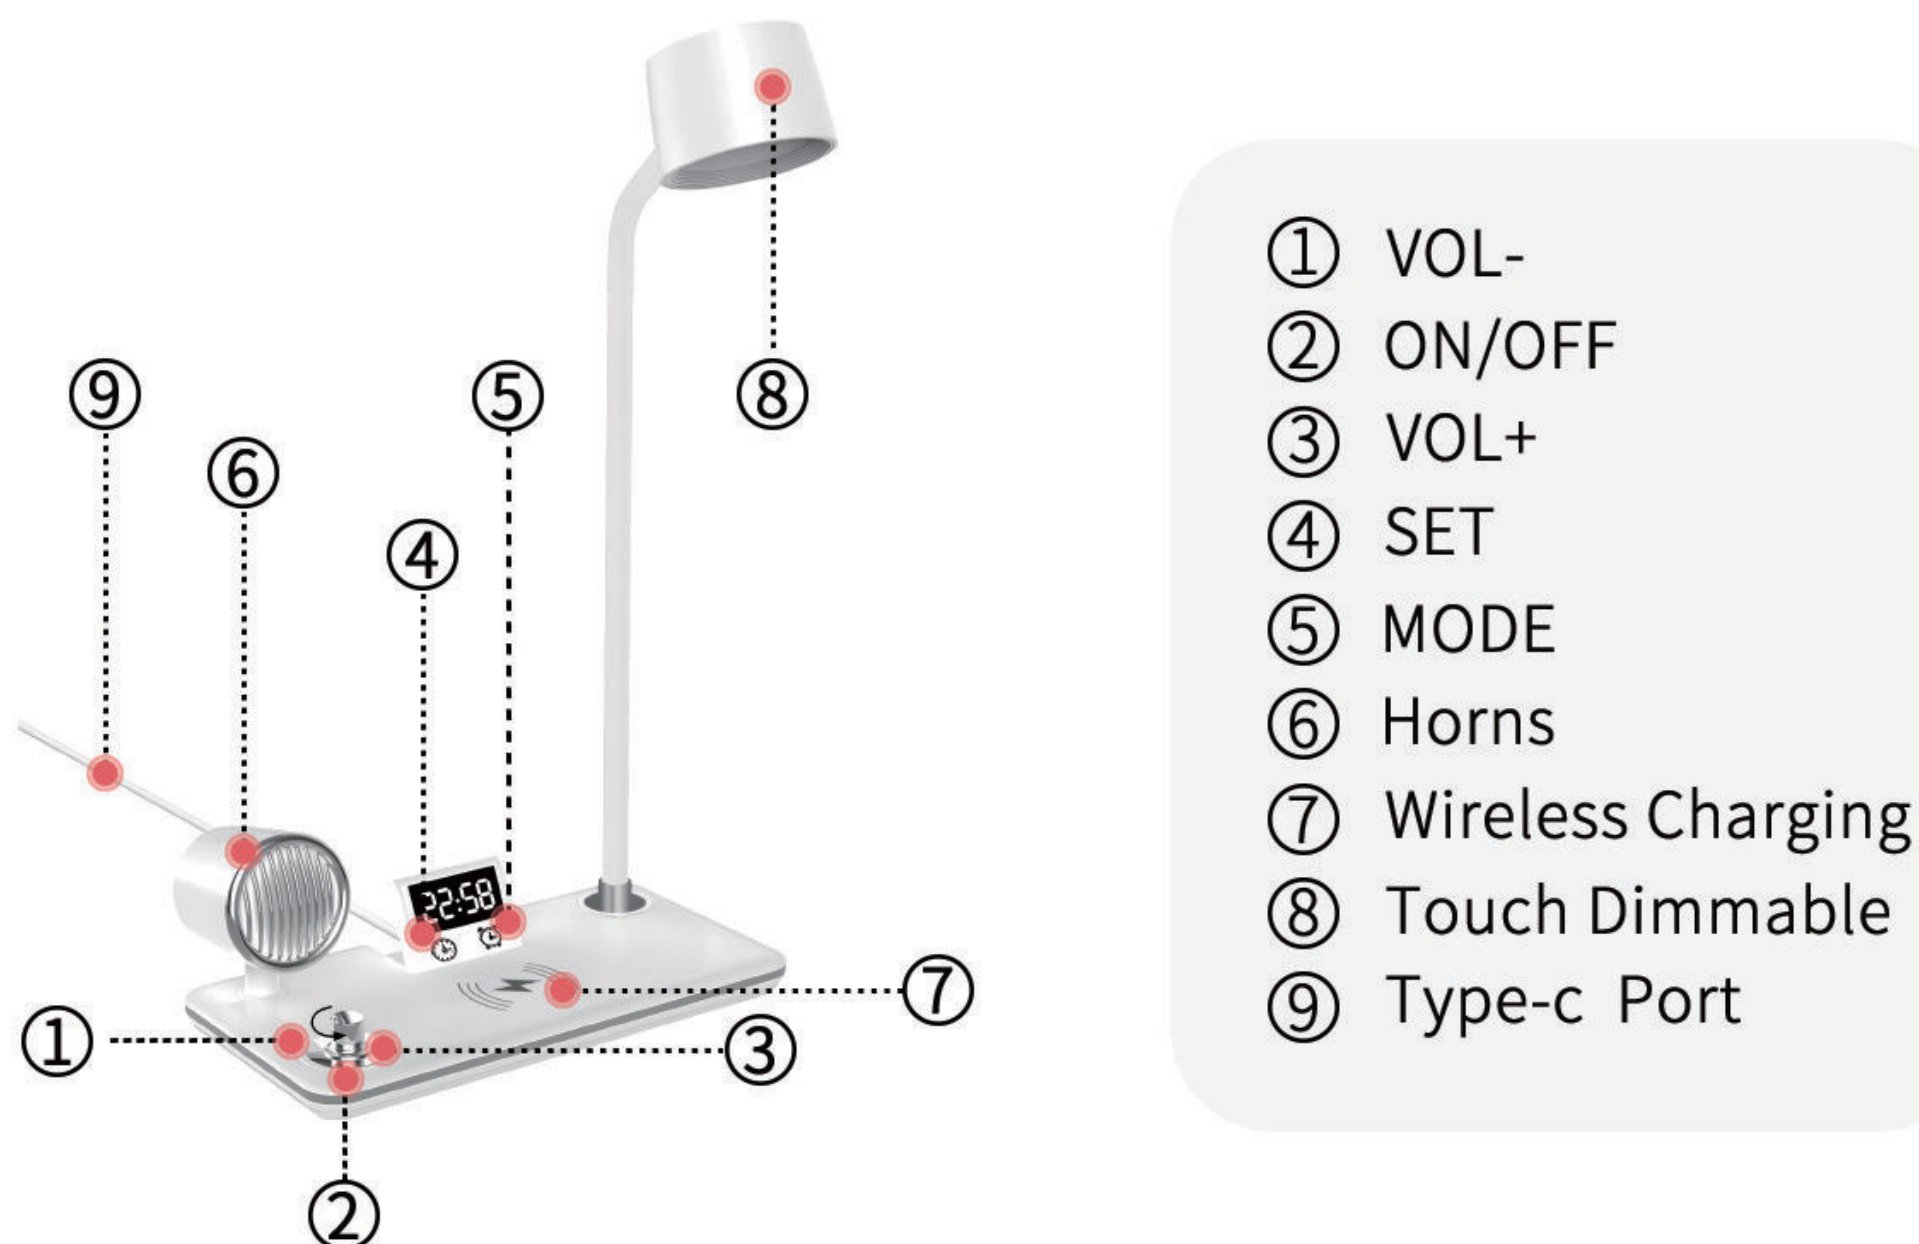

OPERATING INSTRUCTIONS

NOTE: Wireless charging capabilities will only work with devices or charging cases capable of accepting a wireless charge.

1. Connect the USB-C cable into the power input at the back of the lamp. Connect the opposite end (USB-A Port) into a suitable USB Wall Charger (DC 5V/3A or higher – not supplied).
2. Turn the power on by touching the power button on the back of the lamp head.
3. Tap the power button to switch between colour temperatures (Warm, Cool or Daylight).
4. To use the wireless charging function, simply place the phone onto the wireless charging area located on the base of the unit.

*You may be required to move the phone in order to align the charging pad with the wireless charging receiver inside your compatible device. Once aligned charging will begin.

*Use the recommended DC 5V/3A (or higher) wall charger to ensure the product receives an adequate power supply to sustain wireless charging and light functions concurrently. Using a lower output power supply may cause the product to function at a sub-optimal level i.e. the light may turn off when you initiate wireless charging due to a lack of power supply.

• Bluetooth Audio Instructions

Warranty

Products are protected by warranty for a period of 1 year from date of purchase against manufacturing defects in material and functionality. Should a product fail to perform as described within the warranty period, return to the original place of purchase and provide a copy of the proof of purchase for warranty claim.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
