

**Let's get this
party started.**

Powerlync Plug Setup Guide

Your Powerlync Plug

Welcome!

Here you'll find everything you need to know to get started with your new Powerlync Plug.

Powerlync Plug Setup

30 ft

① Find the perfect spot

- Unpack the Powerlync Plug
- Find a location less than 30 ft away from your home's meter
- Plug it into the wall

② Launch Powerlync Plug Setup

Once your Powerlync Plug is plugged in, launch the app on your mobile device to begin the Powerlync Plug Setup. Follow the in-app instructions to complete the setup process.

Exploring the app

Stay connected in real-time

Use your real-time energy consumption on the dial to understand how your home uses energy at different times.

Get to know your home

Identify your high-usage appliances by turning devices off and tracking your spikes on the dial.

Have peace of mind

Forget if you left an appliance on after leaving the house? Check the dial to see if your energy usage looks normal for your home.

Know what to expect on your bill

Set a monthly budget and track your energy usage to stay on top of your bill.

Additional information

Technical Specifications

- Outlet requirement is 120VAC, 50/60 HZ source only
- Connected device to plug can not exceed the 15A limit
- Pending Certifications: Zigbee, Wifi, ETL, FCC, Apple HomeKit
- Operating Temp: 0C to 40C degree

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: The user is cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

FCC Supplier's Declaration of Conformity

- Product Name: Powerlync Plug
- Model Number: PWLY-278383-A1
- FCC Compliance Statement
- Applicable standards: FCC CFR 47 Part 15 Subpart B

This device complies with related rules, operation is subject to the following two conditions.

(1) This device may not cause harmful interference and, (2)
This device must accept any interference received, including
interference that may cause undesired operation.
