Letter of Attestation

Date: 16/5/2016

Subject: FCC ID 2AHFK-EPT012462 and IC 21200-EPT012462

The Quality Management Module (QMM) consists of the QMM-RFID unit and the QMM-LSM unit. Although these 2 parts are separable, the QMM-RFID unit cannot operate independently from the QMM-LSM unit. The connecter pin-out on the QMM-RFID is unique to this unit and this information is strictly confidential within Domino. This unique connection method prevents third party devices being used with the Domino QMM.

Sincerely,

By: C.H.M ELECTRONICS MANAGER C. HALL
