- Ease of use in conjunction with a micro 5 pin charger
- WMC-1100 GUT CRADLE is not wobble and no gap due to adapt Urethane coating ball head

- WMC-1100 GUT CRADLE is released with two designs

Magnetic induction charge!

WMC-1100 GUT CRADLE is a wireless and non-contacting charger.

Provide a power to short-range with inside coil which is inside a charger,

when you approach to mounted pad charge is started.

Point 01

Smartphone Cradle combined wireless charger

Is is possible to charge in car without wire.

Don't it uncomfortable when phone call come in? to plug in and out the cable.

Now you can solve it with wireless charger.

When you put it on cradle it is charged automatically and easy to use very freely.

Point 02

use US Patented gel pads!

use US Patented gel pads which is excellent attach power and durability.

Isn't is all same gel pad? Of cause not WMC-1000 use US Patented gel pad

so it is not comparable with others who just imitated.

WMC-1100 is very boast of Perfect attach power and durability.

U.S PATENT : U.S. PATENT US 7,628,362 B2

Appearance can imitate, but performance can not come along!

=> Can imitate the shape but can't imitate performance

Amazing attaching power possibly attach on every place.

Gel pad's own attaching power and suction's power makes

WMC-100 can fixed every place except for fabric, WMC-1000
can attach everywhere such as glass, wall, dash board.

=> Clean water can be used repeatedly!

Gel pad is contaminated by dust or something?

Don't need to worry. Clean the pay with water and can use again,
whenever clean it, you can use it forever.

=> everyone can fix it easy and simple

After clean the location where you want to attach,
just push down lever it is easily attached
Due to compressed and adsorbed done at the same time.

Point 03

360 degree rotatable up and down, left and right angle adjustable

360 degree rotation and a perfectly set at any angle of the desired angle to adjust!

ULETTE co., Ltd.,
B-1105 Ga-ho, BYC Center, 371-17 Gasan-dong,
Geunchun-Gu, Seoul, Korea

Can adjust at any angle what the users are want because of it is possible to
360 degree rotatable up and down, left and right angle adjustable
Also can set the smartphone horizontally and vertically.

Point 04

WMC-1100 GUT CRADLE is not wobble due to adapt Urethane coating ball head!

Even you fixed well but still move and twisted? Don't need to worry WMC-1100 is
possibly use without movement and wobbling due to fixed the ball head
(which is rotating parts) with urethane, no need extra robber or silicon sealings.

Point 05

cradle width extended to 105mm!

It is possible to set normal smart phone, Galaxy note series and even
biggest size 6.5 inch Galaxy mega , can set most of smart phone.

can be use a desk top!

WMC-1100 is not only use in a car but also desk top at home or office

WMC-1100 can put on desk, table even it has no glass because of
excellent attach power and stability of use US Patented gel pad.

FCC Statement

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ✓ Reorient or relocate the receiving antenna.
- ✓ Increase the separation between the equipment and receiver.
- ✓ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ✓ Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by Bullitt Group may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or tv interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
