RE: Confidentiality Request For HydraData Fluid Intake Monitor, FCC ID 2AHIB-HYDRADATA

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the following items required to be submitted with this application be permanently withheld from public review:

Block Diagram / Mechanical Drawings
Schematics / PCB Layouts
Theory of Operation / Technical Description
Parts List / BOM

These documents contain detailed system and equipment descriptions and related information about the product, which Assistive Technology Products, Inc considers to be proprietary, confidential, and a custom design and otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, Assistive Technology Products, Inc feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

A handwritten signature in blue ink, appearing to read "Dan T. Adlon". The signature is fluid and cursive, with the first name "Dan" and last name "Adlon" clearly distinguishable.

Daniel T. Adlon
Chief Operating Officer
