

SIZE: 70x158mm

**MAGNAVOX**

**BLUETOOTH SPEAKER**

OWNER'S MANUAL

PLEASE READ BEFORE OPERATING THIS EQUIPMENT.

MODEL: MMA4013

**FCC NOTICE:**  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in which case the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC STATEMENT**

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference that may cause undesired operation.

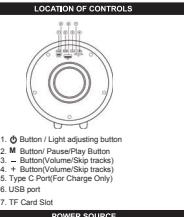

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**FCC WARNING:**

To assure continued operation, follow the attached installation instructions and the only short circuit when connecting to other devices. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction

LOCATION OF CONTROLS

1. **Power**

2. **M** Button / Light adjusting button

3. **+** Button/Volume/Skip tracks

4. **-** Button/Volume/Skip tracks

5. **TF Card** Port

6. **USB** port

7. **TF Card Slot**

8. **POWER SOURCE**

The unit has a built-in Li-Ion rechargeable battery, charge by USB port.

1. Connect the small plug from the supplied USB Connection Cable to the DC 5V (Type C) Port on the unit.

2. Connect the other end of the supplied USB Connection Cable to the USB Port on the Personal Computer or USB Charger (Computer and USB Charger are not included).

3. When charging, the Red Charging Indicator on the unit will illuminate.

4. When charging is complete, the Red Charging Indicator will turn off.

**NOTES:**

1. When charging, you can also play and listen to music at the same time.

2. Your battery will last longer if you follow these simple guidelines: a) Before first time use, recharge the unit approximately 3 hours until the unit is fully charged.

3. Do not expose the unit to extreme temperatures (below 5°C - 35°C (40°F - 95°F)).

4. Do not overcharge (longer than 24 hours). Excessive charging or running the unit completely flat will damage battery. Battery life will be extended if you keep the battery fully charged.

5. Battery life naturally shortens slowly over time.

**2. Power**

1. Press the **M** button to turn on the unit.

2. Press the **M** button again to turn off the unit.

3. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

4. When the unit is turned off, the blue indicator at the back of the unit will turn off.

5. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

6. When the unit is turned off, the blue indicator at the back of the unit will turn off.

7. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

8. When the unit is turned off, the blue indicator at the back of the unit will turn off.

9. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

10. When the unit is turned off, the blue indicator at the back of the unit will turn off.

11. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

12. When the unit is turned off, the blue indicator at the back of the unit will turn off.

13. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

14. When the unit is turned off, the blue indicator at the back of the unit will turn off.

15. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

16. When the unit is turned off, the blue indicator at the back of the unit will turn off.

17. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

18. When the unit is turned off, the blue indicator at the back of the unit will turn off.

19. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

20. When the unit is turned off, the blue indicator at the back of the unit will turn off.

21. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

22. When the unit is turned off, the blue indicator at the back of the unit will turn off.

23. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

24. When the unit is turned off, the blue indicator at the back of the unit will turn off.

25. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

26. When the unit is turned off, the blue indicator at the back of the unit will turn off.

27. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

28. When the unit is turned off, the blue indicator at the back of the unit will turn off.

29. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

30. When the unit is turned off, the blue indicator at the back of the unit will turn off.

31. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

32. When the unit is turned off, the blue indicator at the back of the unit will turn off.

33. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

34. When the unit is turned off, the blue indicator at the back of the unit will turn off.

35. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

36. When the unit is turned off, the blue indicator at the back of the unit will turn off.

37. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

38. When the unit is turned off, the blue indicator at the back of the unit will turn off.

39. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

40. When the unit is turned off, the blue indicator at the back of the unit will turn off.

41. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

42. When the unit is turned off, the blue indicator at the back of the unit will turn off.

43. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

44. When the unit is turned off, the blue indicator at the back of the unit will turn off.

45. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

46. When the unit is turned off, the blue indicator at the back of the unit will turn off.

47. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

48. When the unit is turned off, the blue indicator at the back of the unit will turn off.

49. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

50. When the unit is turned off, the blue indicator at the back of the unit will turn off.

51. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

52. When the unit is turned off, the blue indicator at the back of the unit will turn off.

53. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

54. When the unit is turned off, the blue indicator at the back of the unit will turn off.

55. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

56. When the unit is turned off, the blue indicator at the back of the unit will turn off.

57. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

58. When the unit is turned off, the blue indicator at the back of the unit will turn off.

59. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

60. When the unit is turned off, the blue indicator at the back of the unit will turn off.

61. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

62. When the unit is turned off, the blue indicator at the back of the unit will turn off.

63. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

64. When the unit is turned off, the blue indicator at the back of the unit will turn off.

65. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

66. When the unit is turned off, the blue indicator at the back of the unit will turn off.

67. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

68. When the unit is turned off, the blue indicator at the back of the unit will turn off.

69. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

70. When the unit is turned off, the blue indicator at the back of the unit will turn off.

71. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

72. When the unit is turned off, the blue indicator at the back of the unit will turn off.

73. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

74. When the unit is turned off, the blue indicator at the back of the unit will turn off.

75. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

76. When the unit is turned off, the blue indicator at the back of the unit will turn off.

77. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

78. When the unit is turned off, the blue indicator at the back of the unit will turn off.

79. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

80. When the unit is turned off, the blue indicator at the back of the unit will turn off.

81. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

82. When the unit is turned off, the blue indicator at the back of the unit will turn off.

83. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

84. When the unit is turned off, the blue indicator at the back of the unit will turn off.

85. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

86. When the unit is turned off, the blue indicator at the back of the unit will turn off.

87. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

88. When the unit is turned off, the blue indicator at the back of the unit will turn off.

89. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

90. When the unit is turned off, the blue indicator at the back of the unit will turn off.

91. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

92. When the unit is turned off, the blue indicator at the back of the unit will turn off.

93. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

94. When the unit is turned off, the blue indicator at the back of the unit will turn off.

95. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

96. When the unit is turned off, the blue indicator at the back of the unit will turn off.

97. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

98. When the unit is turned off, the blue indicator at the back of the unit will turn off.

99. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

100. When the unit is turned off, the blue indicator at the back of the unit will turn off.

101. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

102. When the unit is turned off, the blue indicator at the back of the unit will turn off.

103. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

104. When the unit is turned off, the blue indicator at the back of the unit will turn off.

105. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

106. When the unit is turned off, the blue indicator at the back of the unit will turn off.

107. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

108. When the unit is turned off, the blue indicator at the back of the unit will turn off.

109. When the unit is turned on, the blue indicator at the back of the unit will illuminate.

110. When the unit is turned off, the blue indicator at the back of the unit will turn off.

111. When the unit is turned on, the blue indicator at the back of the unit will illuminate.
