

BYTECH®
THE ART OF TECHNOLOGY

Windows® and Mac® Compatible

BY-MS-WS-131-AC

INCLUDED ITEMS:
• (One) Bling Optical Mouse
• (One) USB Receiver
• (One) User Manual

FEATURES
• 3 buttons with scroll wheel.
• No pairing required. Plug and Play via 2.4GHz USB receiver.
• Auto power function, saves and prolongs battery life.

USB RECEIVER
The USB receiver can be found stored in a slot adjacent to the battery bay under the battery bay door.
• Flip the mouse over and remove the battery bay door. You will see a smooth black rectangular object.
• Remove it carefully by hooking a fingernail into the groove along the surface that faces the battery bay and lift it up slowly to free it.
• Store the receiver in this slot when the mouse is not in use so that it doesn't get lost.

HOW TO USE
1. Insert the USB receiver into your computer's USB port.
2. Place (One) X AAA 1.5V Alkaline Batteries (not included) into the battery compartment of the mouse.
3. When the mouse is in pairing mode, the red LED will flash. Once the mouse is paired and connected to the PC, the red LED will remain on steadily.
If the connection fails, please remove the battery first, reinsert the USB receiver, and then install the battery. Repeat the above steps until the connection is successful.
In connection status, the mouse will go into sleep mode if not used for two minutes and enter deep sleep mode after ten minutes.

2.4GHz Wireless Mouse

FCC Caution:
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

TROUBLESHOOTING
If device won't connect, try the following:
• Be sure the USB receiver is connected to your computer.
• Be sure the USB receiver is not damaged.
• Check your computer's input settings.
• Try new batteries in the mouse.
• Restart your computer.

SPECIFICATIONS
Operating Voltage: 1.5V
Operating Current: 10mA
Operating Distance: 7-10m
