### **Compatible Antennas**

The only compatible antenna for the 13.56MHz transmitter in the ivWatch Model 400 Patient Monitor is a custom designed flexible antenna, ivWatch part number CE-1001000 (drawing attached).

### **Unique Antenna Connector**

The RFID transmitter in the ivWatch Model 400 includes an antenna that is a custom-designed flexible circuit which connects to the circuit board by an FFC connector. The antenna is mounted on an internal surface in the Model 400's housing in a specific position, requires professional installation by an ivWatch technician.

### **Antenna Type**

Inductive Loop Antenna

### **Antenna Size**

0.795 x 0.400 in.
