## ATTESTATION LETTER

**FCC ID: 2AHS8-KPAU02**

**Date: Mar. 25, 2016**

Federal Communications Commission  
Authorization and Evaluation Division  
7435 Oakland Mills Road  
Columbia, MD 21046

To whom it may concern:

I, the undersigned, hereby attest that we know the used IC MT6627 support implemented WiFi, bluetooth and GPS functions. But In fact, users could not open WiFi and Bluetooth functions because both WiFi and Bluetooth functions have been permanently disabled by software. Nobody can enable this function anymore.

Sincerely,

---

Dennis Volodomanov/ Manager
