

Technical description

Description	Function	Component
Antenna	Transmit modulated RF signal	ANT
Oscillator	Generate 49.86 MHz carrier	Y1, Q1

Antenna Type: dedicated antenna

Antenna Gain: 0dBi

Modulation Type: AM modulation

The nominal conducted output power specified: -35.0dBm (+/- 3dB)

The nominal radiated output power (e.r.p) specified: -37.15dBm (+/- 3dB)
