

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**EUT Housing and
Board View 2**

EUT Housing and Board View 3	 A photograph showing the EUT housing and board from a top-down perspective. The components are laid out on a blue textured surface next to a black ruler with white markings. The ruler is oriented vertically on the left and horizontally at the bottom. The components include a black plastic housing, a black printed circuit board (PCB) with various electronic components, a small black cylindrical component, and a white plastic housing. Wires connect the components.
Solder Board-Component View 1	 A photograph showing a close-up of a soldered board component. The component is a small green PCB with a central square component. It is placed on a blue textured surface next to a black ruler with white markings. The ruler is oriented vertically on the left and horizontally at the bottom. The component is labeled with "VER1.0", "IPC-M21-010", and "20231031".

Solder Board-Component View 6	 A photograph of a small, rectangular, black printed circuit board (PCB) component. The board is populated with various electronic components, including a central integrated circuit (IC), several resistors, and capacitors. It features a multi-pin connector on the left side and a smaller connector on the right. The component is placed on a blue textured surface next to a black L-shaped ruler with white millimeter markings for scale.
Solder Board-Component View 7	 A photograph of a small, rectangular, green printed circuit board (PCB) component. The board is populated with various electronic components, including a central integrated circuit (IC), several resistors, and capacitors. It features a multi-pin connector on the left side and a smaller connector on the right. The component is placed on a blue textured surface next to a black L-shaped ruler with white millimeter markings for scale.

Solder Board-Component View 8	 A photograph showing a small green printed circuit board (PCB) component with two circular holes and some solder points. It is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters. The ruler shows dimensions from 0 to 100 mm.
Antenna View	 WiFi and BT Antenna A photograph showing a larger black PCB component with various electronic components, including a central chip and several connectors. A red box highlights a specific area on the right side of the board, and a red line points from this box to a label "WiFi and BT Antenna" located below the image. The component is placed on a blue textured surface next to a black L-shaped ruler with white markings in millimeters. The ruler shows dimensions from 0 to 100 mm.
