OPERATING INSTRUCTIONS

CAR STEREO DIGITAL MEDIA PLAYER

Gratitude

Thank you for purchasing our in-car MP3/CD player. Integrated with comprehensive software and hi-fi stereo, our reliable product presents you outstanding audio effect and premium entertainment.

Cautions

- Do not expose the vesicle to direct sunlight, and avoid the risk of overheating.
 - If there is no power supply, check through all the wire connection and fuse.
 - Antenna automatically extends when this unit is turned on,if your car has auto-antenna.
 - Shut down the power before remove the key to be more power saving.
- Should you have any other questions that are not mentioned in this manual, please contact our company or the nearest agents. Your feedback and advices is highly appreciated.

Humidity Notice

During rainy days and in damp areas, the moisture could remain in the lens and finally cause malfunction.

In such case, please take the disc out from the compartment and switch to FM mode until the water evaporated.

Maintain the Audio Effect

Get the most of this device and protect the unit or disc from being stained in the lens and deteriorated in the audio effect,do not drink near the audio device.

Warnings

- Make sure the power is shut down before installation and removal.

AUX in
Auto-saved 12 stations(AM 12) optional

Disc Handling

Eject the disc before shut down the unit and keep the loading time within 120 minutes so as to protect the lifespan of the pickup. Skipping sound occurs when a dirty or damaged disc is inserted. In order to obtain the best audio effect please pay attention to the following tips:

Please take the edge of the disc merely to keep it clean.

Do not place discs under direct sunlight or other heating source. Avoid the risk of overheating, do not leave it in car for a long time during hot weather.

Do not put stickers or adhesive tape on discs.

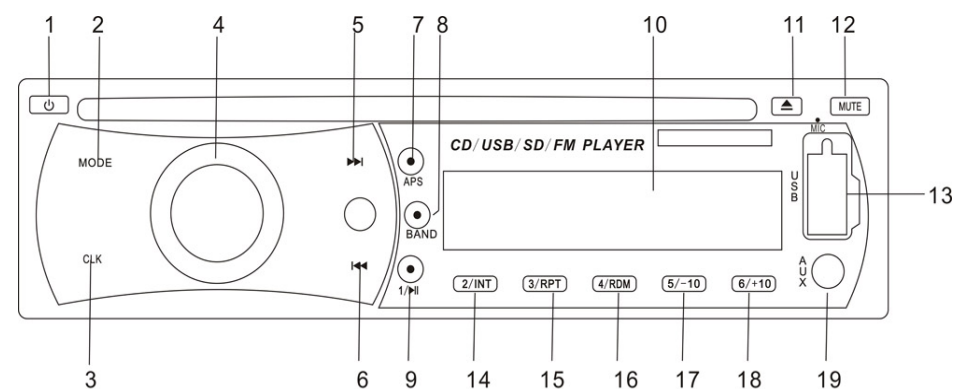

Wipe the disc outward from the center.

Do not use any solvents such as alcohol and diluents nor any detergent and antistatic spray which will damage the device/discs.

Second-hand and hackney discs with glue on the surface could stop the spinning of the discs and even cause malfunction in pickup.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
