Smith by Aura.
Hand-drawn and realized in metal,
intricate patterns catch light and
cast dramatic shadows.

Disclaimer:
Design or modifications not expressly approved by the party responsible for compliance could void the ability to receive the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: - Reorient or relocate the receiving antenna. - Increase the separation between the equipment and receiver. - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. - Consult the dealer or an experienced radio/TV technician for help.

Getting started

Aura is the easiest way to view and share your photos, instantly, anywhere.
In a few easy steps you'll connect your frame to WiFi and start adding photos!

STEP ONE

Plug in the frame.

First plug in the power cable, then attach the stand over the power cable.

STEP TWO

Get the free Aura app.

Search "Aura Frames" in the Apple App Store or Google Play.

STEP THREE

Connect your frame to WiFi.

Make sure your mobile device is connected to your home WiFi network and Bluetooth is turned on.

STEP FOUR

Add some photos.

Your photos are automatically synced with the Aura app. Select photos from your camera roll or browse Aura-curated Smart Albums.

STEP FIVE

Invite family members.

Aura is more fun with family! They'll need to download the Aura app and accept your invite to start sharing.

TA-DA!

Your frame is all set up!

Snap a photo of your frame and tag #AuraFrames to share it with us. @AuraFrames

Changing Photos

Touch bars let you control your frame without opening the Aura app. Swipe left or right across the top of the frame to change photos; swipe up on the side of the frame to view details like when and where a photo was taken.

Smart Curation & Cropping

You'll notice the people you take photos of most often have an album dedicated to them—even your pets! If your frame is in portrait orientation and you add a landscape photo, the app will auto-position the photo to fit.

Family Sharing

Invite the whole family to share photos from anywhere in the world. Unlimited storage means you can invite as many people as you'd like to share their photos.

Auto Brightness

Aura will adjust brightness depending on the light level in the room. Your frame will turn on in the morning and off at night, or you can set a schedule in the Aura app.

Made for iPhone XS, iPhone XS Max, iPhone 8 Plus, iPhone 8, iPhone 7 Plus, iPhone 7, iPhone 6 Plus, iPhone 6, iPhone SE, iPhone 5s, iPhone 5, iPhone 4s, iPad Pro 12.9-inch (2nd generation), iPad Pro 12.9-inch, iPad Pro (2nd generation), iPad Pro 9.7-inch, iPad Pro 9.7-inch (2nd generation), iPad 2, iPad mini 4, iPad mini 3, iPad Air, iPad mini 2, iPad mini, iPad (5th generation), iPad (4th generation), iPad touch (5th generation), iPad touch (4th generation). "Made for iPhone," "Made for iPad" mean that an electronic accessory has been designed to connect specifically to iPad, iPhone, or iPad, respectively, and has been certified by the developer to meet Apple performance standards. Please note that the use of this accessory with iPad, iPhone, or iPad may affect wireless performance. iPad®, iPhone®, and iPod® are trademarks of Apple Inc., registered in the U.S. and other countries. Use of the Made for Apple badge means that an accessory has been designed to connect specifically to the Apple product(s) identified in the badge and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
