SAFETY INFORMATION

MEATER PRO DUO

Charger Battery Type	Alkaline
Charger Battery Nominal Voltage	3.7V
Charger Battery Size	14 x 50mm (inc) Per cell
Charger Battery Quantity	1
Charger Model Number	MT-CCD2/MT-MD201
Probe Model Number	MT-PRO / MT-PRO2
Probe Battery Nominal Voltage	3.4V
Probe Capacity	3mAh
Operating Frequency	2402 - 2480 MHz
WLAN Frequency	2412 - 2462 MHz
Importer Name & Address	**Apption Labs,** 66 Commercial Square, Leicester, LE2 7LR, UK **MEATER,** 3779 Champion Blvd Studio City, CA 91604 **United States** **MEATER,** Fred-Otto-Straße 7, 60311 Frankfurt, Deutschland

Read All Instructions Before Using

Please read this entire manual before using your MEATER product. Failure to follow these instructions could result in property damage, bodily injury, or electrical shock. Retain this manual for future reference. Refer to this manual for the owner to read and care for future reference.

WARNING

Burn Hazard

Failure to follow these instructions may cause the MEATER probe to explode and lead to serious injury or burns.

Always insert the MEATER probe past the safety notch (the minimum insertion point) to avoid exposing the internal sensor.

DO NOT place the MEATER Pro Duo's charger or near a hot surface.

DO NOT immerse MEATER Pro Probe while Probe is exposed to heat. MEATER Pro Probe must be completely removed from food away from all heat sources.

If the MEATER Pro Probe falls into the fire or direct heat source, close the lid of the grill/cooking appliance and allow the MEATER Pro Probe to cool down immediately. Once cooled, the MEATER Pro Probe tone to indicate it is safe to use.

DO NOT allow MEATER Pro Probe to come in contact with fast charcoal or coals.

MEATER Pro Probe will be hot during and after use. Use heat-resistant gloves when handling probes.

CAUTION

Product Damage Hazard

Always insert the MEATER probe past the safety notch to avoid damage.

DO NOT use the probe in a microwave or pressure cooker.

DO NOT place probe charging dock on any hot surface.

DO NOT drop the probe onto hard surfaces.

DO NOT use cleaning products containing alcohol, ammonium, benzene, or abrasives, all of which could damage the device.

DO NOT run the probe under cold water immediately after use. Wait for the probe cool down prior to washing.

DO NOT exceed probe internal sensor limits of 212°F (100°C) or probe ambient sensor limits of 104°F (50°C). Temperatures above these maximums may damage the probe.

Store the probe in a dry, cool place when not in use. This product is only designed for use in food. Use it only for its intended purpose.

This product is only designed for use in food. Use it only for its intended purpose.

Foodborne Illness Hazard

Consuming raw or undercooked meats, poultry, or seafood may increase your risk of foodborne illness. Always cook your food to USDA safe temperatures.

Business enquiries

Business enquiries, press and influencers

Sharp Point Hazard

Always keep the MEATER probe pointed away from you and others to avoid any risk of injury. Keep out of reach of children.

Electrical Shock Hazard

Keep probe charging dock away from water and liquids. Failure to do so may cause electrical shock. Unplug charging dock from any battery-powering it back in the charging dock.

Getting Started

Before using your MEATER 2 Plus, ensure the product has been charged and you have reviewed the important safety information on the page.

If you need any assistance using your MEATER device or have any questions, please check out our Support Wizard and FAQ. If you need to speak to a member of our dedicated support team, you can use our Support Wizard to help navigate you to the correct team.

FAQ

Answers to our most common concerns

Contact Us

Business enquiries, press and influencers

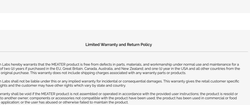
What is the maximum temperature MEATER can be used at?

The maximum temperature the ambient tip of the MEATER probes can withstand is 212°F (100°C).

The maximum temperature the internal temperature sensor can withstand is 212°F (100°C).

To ensure the safety of the probe, the MEATER app will alert you when you get close to these temperatures.

Make sure to always insert the MEATER probe into your meat past the safety notch to avoid damage to the internal sensor.



To reset the MEATER Pro Duo press the reset button located under the charger back panel.

Important Safety Information

Charcoal Grill Cooking

Always insert the MEATER probe past the safety notch.

Ensure the probe is firmly inserted and not loose before cooking.

DO NOT cook with MEATER if the MEATER probe doesn't pass the safety notch.

Always wash your hands after handling raw meat.

Place the meat over indirect heat on your grill.

DO NOT remove the probe while it is hot. The MEATER probe will be hot if exposed to and removed from heat away from all heat sources.

Always use oven mitts/heat when removing a probe that has exceeded the safe temperature or that has been in contact with hot charcoals or direct flames.

Carefully remove the meat from the grill when prompted by the MEATER app.

DO NOT remove the probe from the meat while on the grill.

Allow your meat to rest until the app tells you it is ready.

Once ready you can reverse sear your meat on the grill to develop the crust on your grill, for a delicious finish.

Once rested (and seared) you must wait for the ambient temperature to reach 104°F (40°C) before removing the MEATER probe.

If the probe is difficult to remove, pull and hard the ambient and. Do not bend the probe against the meat

Once your meat is seared, serve and enjoy!

General Information

Information for the User

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

CAN ICES-3 (B) / NMB-3 (B)

Hereby, Apption Labs Ltd declares that the radio equipment type MEATER Pro Duo (MT-DCD2/MT-MD201 & MEATER Pro Probe (MT-PRO) - MT-PRO2) is in compliance with Directive 2014/53/EU.

The product complies with the Radio Equipment Directive and applicable standards, as well as the food contacting requirements LFGB.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. All trade marks by Apption Labs is under license. Other trademarks and trade names are those of their respective owners.
FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

IC Statement

This device contains licence-exempt transmitter(s) /receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
1) This device may not cause interference.
2) This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil contient des émetteurs / récepteurs exempts de licence qui sont conformes au (x) RSS (s) exemptés de licence d'Innovation, Sciences et Développement économique Canada. L'exploitation est autorisée aux deux conditions suivantes:
1) Cet appareil ne doit pas causer de brouillage.
2) Cet appareil doit accepter tout brouillage, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

IMPORTANT NOTE
IC Radiation Exposure Statement
This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

Declaration of conformity
We, Apption Labs Limited, declare under our sole responsibility that the product mentioned above complies with the essential requirements of the stated EU Directive. The EU Declaration of Conformity can be found here - https://meatercom/ce-declaration/

Disposing of the packaging
Dispose of the packaging separated into single type materials. Dispose of cardboard and carton as waste paper and film via the recyclable material collection service.

Disposing of the product
Do not dispose of electronic, timer and other European states with systems for the separate collection of reusable waste materials!
Old devices must not be disposed of with household waste! If the product can no longer be used, all users are required by law to dispose of old devices separately from household waste, for example at a municipal collection point. Batteries and rechargeable batteries must be removed in a non-destructive manner and also take out negative consequences for the environment. For this reason, electrical equipment is marked with the symbol shown here.

Batteries and rechargeable batteries must not be disposed of in household waste! In the event sure you are required by law to bring all batteries and rechargeable batteries, regardless of whether they contain harmful substances' or not, to a collection point run by the communal authority or borough or city district or to a point of sale where batteries are sold.
Bring the product (including the battery) separately to your collection point and make sure that it is in an uncharged state.
Labelled with: Cd - cadmium, Hg - mercury, Pb - lead

Limited Warranty and Return Policy

Apption Labs hereby warrants that the MEATER product is free from defects in parts, materials, and workmanship under normal use and maintenance for a period of two (2) years if purchased in the EU, Great Britain, Canada, Australia, and New Zealand, and one (1) year in the USA and all other countries from the date of purchase. Apption Labs will repair or replace any defective product during the warranty period at no charge.

Apption Labs shall not be liable under this or any implied warranty for incidental or consequential damages. This warranty gives the retail customer specific legal rights and the customer may have other rights which vary by state and country.

This warranty shall be void if the MEATER product is not assembled or operated in accordance with the provided user instructions; the product is resold or traded to another owner; components or accessories not compatible with the product have been used; the product has been used in commercial or fleet service application; or the user has abused or otherwise failed to maintain the product.

To process a warranty claim, Apption Labs may require proof of purchase. You should retain your sales slip or invoice.

Full warranty and return policy can be found on our online website, **meatercom/warranty-returns**

Full company policies can be found on our online website, **meatercom/support** and is provided by any information found in this user guide.

Should any repairs or servicing under this warranty be required by you during the limited warranty term, please contact the Customer Happiness Team at **meatercom/support.**

The below section details MEATER's compliance with WEEE disposal of waste electrical and electronic equipment.

Austria
EU-Recht in nationales Recht umgesetzt.
Elektrogeräte sind durch das Symbol der Elektrotonne gekennzeichnet.
Elektro- und Elektronikgeräte, die zu Abfall geworden sind, werden als Altgeräte bezeichnet. Besitzer von Altgeräten haben diese einer vom zuständigen Gemeinde eingerichteten Sammelstelle zuzuführen. Altgeräte gehören in keinem Fall in den Hausmüll, sondern in spezielle Sammel- und Rückgabesysteme.
Besitzer von Altgeräten haben Möglichkeiten zur Rückgabe.

Bulgaria
Информация за потребителите
Съгласно Директива 2012/19/ЕС за електрическо и електронно оборудване (ИУЕЕО) и Директива 2006/66/ЕО за батерии и акумулатори и отпадъци от батерии и акумулатори, символът на зачеркнат контейнер за отпадъци означава, че продуктът не трябва да се изхвърля заедно с несортираните битови отпадъци. Вместо това трябва да го предадете на определен пункт за събиране на отпадъци от електрическо и електронно оборудване, за повторна употреба и рециклиране. Отделното събиране на вашето ИУЕЕО по време на изхвърляне ще гарантира, че то ще бъде повторно използвано, рециклирано или третирано по начин, който не вреди на околната среда. За повече информация относно местата, където можете да изхвърлите ИУЕЕО за повторна употреба, рециклиране и третиране, моля, свържете се с местните власти.

Czech Republic
Informace pro uživatele
Podle směrnice 2012/19/EU o elektrických a elektronických zařízeních (OEEZ) a směrnice 2006/66/ES o bateriích a akumulátorech a odpadních bateriích a akumulátorech, symbol přeškrtnuté popelnice znamená, že výrobek nesmí být vyhozen s netříděným komunálním odpadem. Místo toho jej musíte odevzdat na určeném sběrném místě pro recyklaci elektrického a elektronického zařízení. Oddělený sběr vašeho OEEZ při likvidaci zajistí, že bude znovu použito, recyklováno nebo zpracováno způsobem, který nepoškozuje životní prostředí. Další informace o místech, kde můžete OEEZ odevzdat k opětovnému použití, recyklaci a zpracování, vám poskytnou místní úřady.

Denmark
Elektrisk og elektronisk udstyr (EEE) og batterier og akkumulatorer samt affald heraf skal håndteres særskilt
Elektrisk og elektronisk udstyr (EEE) og batterier og akkumulatorer samt affald heraf skal håndteres særskilt. Den krydsede skraldespand symboliserer, at affald af elektrisk og elektronisk udstyr ikke må bortskaffes som husholdningsaffald, men skal indsamles særskilt.
Til dette formål har alle kommuner etableret indsamlingsordninger, hvor affald af elektrisk og elektronisk udstyr gratis kan afleveres af borgerne på genbrugsstationer og andre indsamlingssteder. Derudover kan affaldsordningen være organiseret således, at affaldsselskabet afhenter affaldet fra husholdningen.
Ved bortskaffelse af elektrisk og elektronisk udstyr via den kommunale affaldsordning vil det som udgangspunkt være muligt at aflevere det kasserede udstyr hos den kommunale indsamlingsordninger for at minimere den miljømæssige belastning, i forbindelse med bortskaffelse af affald af elektrisk og elektronisk udstyr og for at forebygge illegal dumpning af elektrisk og elektronisk udstyr.

Ireland
Waste Electrical and Electronic Equipment (WEEE) is taken back free of charge on a one-for-one, like-for-like basis. Waste batteries including rechargeable batteries are taken back free of charge. You are not obliged to make any purchase when returning old batteries. Each local authority must also accept batteries. The WEEE symbol (a crossed-out wheelie bin) on the product means that it must be recycled and should not be placed in any of your household bins. Make sure you always recycle all your old electrical goods and batteries.
