I Structure&Accessories

A. Structure

B. Accessories

II Operation

A: Bluetooth Mode (sing with bluetooth microphone)

1. Turn on microphone, a blue light will come on and a sound will indicate that bluetooth function is ready for use.
2. Search bluetooth ID "TUXUN-Q7" on mobile phone/tablet/pc and connect. Note: it may prompt for a password which by default is 0000. On connecting successfully there will be a sound alert.
3. Open any Karaoke APP or select music file from your device music player, and adjust your device accordingly.
4. Adjust Q7's volume, echo, treble and bass.
5. Sing along

Note: if you want Q7 as a bluetooth speaker, turn off Q7's echo and volume. Bluetooth have memory function, when mobile phone is restarted, it can be connect automatically.

Under bluetooth mode, K068 does not support some Karaoke APP/ software on apple ISO device.

B: Wired Mode(singing recording same time function)

1. Download any karaoke APP/ software on your mobile phone
2. Turn on Q7
3. Connect Q7 and mobile phone as following

4. open karaoke APP to choose songs and sing.
5. Record the song as per the instructions on the karaoke APP.

Note: Bluetooth function must be disconnected.

III Charging

Charging by Q7's USB charging cable

Note: Red light indicates that it is under charging.

In normal condition, 2 hours charging required.

When it finished, the red light will turn off.

VI Technological Specifications

Audio Monitoring: capacitor

Output: 3W (speaker output)

Frequency Range: 100Hz-10KHz

SPL: >115dB 1KHz THD<1%

Reverberation: Echo

Battery: Built-in Lithium Battery

Battery Capacity: 2600mAh

Charging Supply: DC5V

Battery Working Time: 6-7 Hours

App karaoke software on Apple ISO system does not work with microphone bluetooth mode	APP karaoke software under ISO system does not support bluetooth output	Choose music player APP

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
