Specification of Wireless Charging Transmitter

(H20)

Operating

1. Put AC adapter with Micro USB port into H20, red LED mean H20 is working.
2. Put your phone's receiver area in the center of H20, blue LED mean your phone is charging. Green LED mean Charging is complete.

Picture

Specification

Input Voltage and Current	5V, 2000mA
Output Voltage and Current	5V, 1000mA
Charging Frequency	100-200KHz
Working Distance	5-7mm
Charging Efficiency	≥73%

Packing

Charger Size	69.5*10mm

Address: 7th Floor, XinMao Building, New LongHua Distribut, Shenzhen, PRC.

Charger Weight	42g
Optional Color	black, white

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by Highten Electronic Technology Co.LTD may void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
