

## User Manual

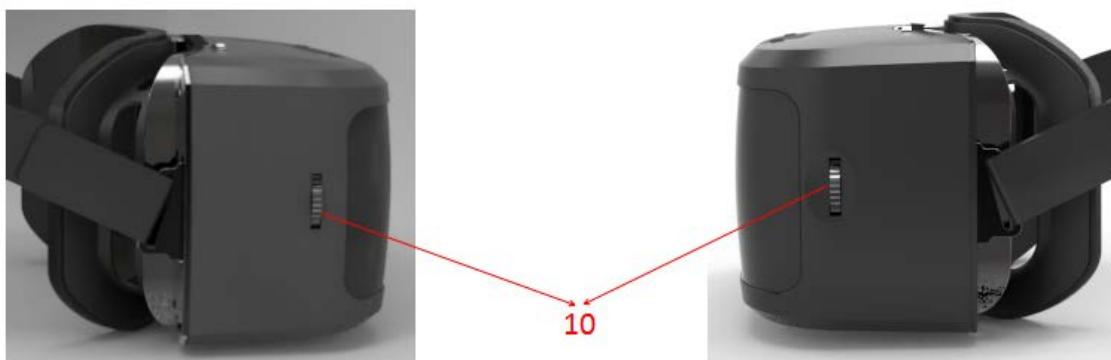

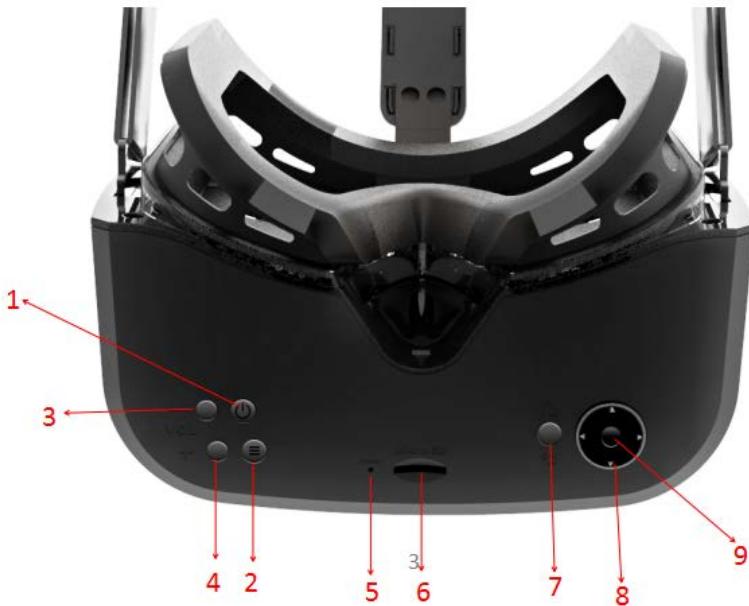

### 一. Main Features

This product is a new feature of wireless Android platform VR game glasses, a variety of games to support Android platform, built in exclusively Nibiru game application platform. Also supports 3D video function, transfer 3D video+game mode directly. It supports external device HDMI 1080P HD video input as well. And quad-core CPU using RK3288 A17 32 Bit 1.8GHz.

### 二. Performance parameters

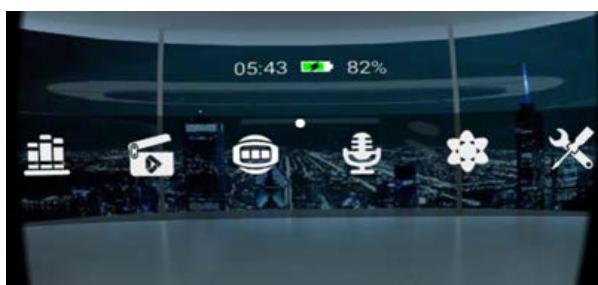

Operation system	Android 5.1
CPU model	RK3288 Quad Cores A17, 32Bit 1.8GHz
RAM Capacity	DDR3 2GB
ROM Capacity	16GB
Storage	Micro SD Card
Expandable memory	64GB
Sensor	Gyroscope
WIFI	IEEE 802.11 n/b/g (Only used for DAVRAV01)
Indicator	LED light to show charge status
Display	5.5 Inch HD 1920*1080
PPI Pixel	440ppi
Refresh rate	60FPS
View Angle	100FOV
Power Management	Input 5V/2A
Control Key	Direction Key, Up/Down/Left/Right/Enter,Reset,ON/OFF,VOL+,VOL-
Configuration Interface	1.MICRO USB Input 5V/2A (Support OTG function like:Wired game controllers/Wired Mouse/Keyboard/USB flash disk) 2.SD Card support 64G 3.3.5MM headphone jack(Stereo with call function) 4.HDMI
Sensor	Accelerator, Magnetometer, Distance.
Standby Current	27mA
Shutdown Current	150uA
Working Voltage	3.7V
Battery Capacity	4200mAh
Full Charging Time	About 3H
Play Games Working Time	About 2H
Watch Video Working Time	About 3H
Antutu run test	34000 Scores
Weight	490g

### 三. Function Introduction

Buttons and interfaces specification			
1	Power button	Long press for 5s will turn it on	
2	Menu	1.Helmet mouse opened/closed 2.VR mode Switch ON/Off 3.Game Operation Figure 4.Peripheral connection 5.Quit game Use the navigation+Enter key to select "Force Quit Applications" 6.Back to Application	
3	VOL-	VOL-	
4	VOL+	VOL+	
5	Reset	buttons nonresponse or system error can not turn off	
6	TF Card	64G TF card readable	
7	Back Button	Press once to return to the previous step	
8	Direction Button	Up/Down/Left/Right	
9	Enter	OK Button	
10	Setting of pupil distance	Use knob to adjust the sharpness, achieve the best visual for user, the higher the myopia knob towards down, the lower the myopia knob towards up, you must also adjust the knobs on both sides	
11	Setting of focal length	Adjusting the distance between the two eyes when appear ghosting	
12	Charge Indicator length	Indicate charging status, red light means charging, full of green	
13	USB port charging and data transmission	Transferring data and charging use	
14	HDMI Input Port	Support 1080P HD Input	
15	3.5mm earphone jack	Audio output	

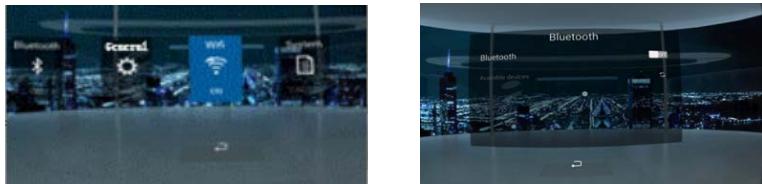

#### 四. Home Application Module Introduction

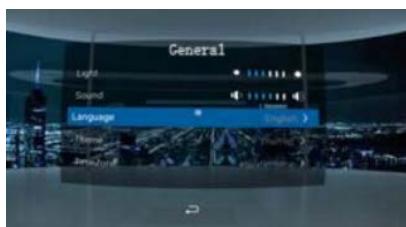

## 1. Use the Navigation+Enter key to enter the settings

### 1.1 Connect WIFI step by step

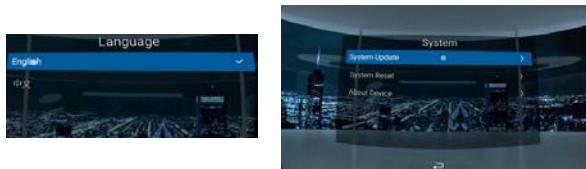

### 1.3 Select General menu to set language

#### 1.3.1 Click the "language" menu

##### 1.3.1.1 Select the language you wanted.

## 2. Multimedia Player

Select video-player  , enter into playlist. Knob down Menu, to operate as the following picture, then select 360°model, and it can play.

3.Long press for 2 seconds to back home and enter into App Store for Game

installation and Download Manager

To download the game, select “Game”to  
download installation

4. HDMI Input

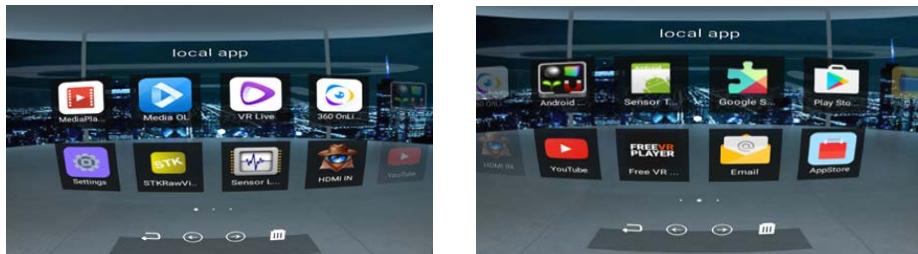

Content with HDMI output devices can be displayed on the VR glasses. Connect HDMI cable

(HDMI A TO HDMI C) .Press Direction Button and Enter , you can connect game device such as XBOX ONE、PS4 with 1080P HD signal Input.

## 5. All Applications

Press Direction+Enter button into “all applications”

### 5.1. Folder Management

Through data cables, SD card, WIFI or other ways to loading files, you must enter the “Folder Manager” to find the video, the installation package and other relevant documents.

5.2 You should do related game settings when not opening the gyroscope function which exists in games, such as "Modern Warfare4".

## 6. Game Controller Introduction

### 2. Game controller Performance Parameters

2.1 Working distance 8-10M.

2.2 Indicator light of game controller:

2.2.1 Power off charging(button switch to OFF) red light will on when charging, full of orange light

2.3 Charger time: 2-3Hours.

2.4 Battery low alarm as yellow light flashing when power on.

2.5 Working current 25ma; Working voltage DC3.7V. Built in rechargeable 500mah Li-polymer.

### 六.Environmental Conditions

Operating temperature	Storage temperature	Relative humidity	Atmospheric pressure
-10~45°C	-20~50°C	≤90%	70~106kPa

### 七.Precautions

1 Use matching power cable/adapter to charge the VR glasses!

2 Do not attempt to disassemble the transformation, in order to avoid malfunction and damage!

3 To avoid exposure, rain, moisture, heat damage to battery!

4 Should not be placed in damp, blanket, backpacks or other poorly ventilated places charge!

5 Do not use chemical solvents to clean this product!

6 If you do not use it, please pack into a dry place to store!

7 Simple maintenance can prolong the life of the product!

8 When the battery is low, please charge it in time to prepare for subsequent re-use!

9 Please sit or lie down when using this product, do not move around so as not to fall/collision causing bodily harm

10 This product can not be experienced with myopic glasses.

## 八.FAQ

1. What is APK?

A: APK is Android Package Acronym, Android installation package.

2. How to get APK?

A: You can download and install online via PC, or download and install from "Android Market".

3. The VR can be charged via USB?

A: It can be charged via USB, but the charging current is small.

4. How to do if the display shows multiple screens when playing games or watching movies?

A: When the games and movies have multiple screen layout, press the Menu key and Navigation key to select "VR mode switch" to turn off when you can return to normal.

5. When the button has no response or an error and the system cannot be shutdown, how to do?

A: Insert the reset hole with a fine metal rod reset operation, restart the system.

6. How to Uninstall APK or delete the video/ image.

A: Press Navigation+Enter key to enter the "all applications" select top right "management", and select the APK you want to delete, then choose Uninstall. If you need to delete video or picture, please connect VR glasses with a PC via USB cable to delete.

7. How to do if Multi-pictures out?

A: At first, restart if the machine is abnormally displayed. Secondly, reset to factory setting (this method will automatically clean up the memory inside the file), you can return to normal.

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
