| 3. long press is volume down, short press is previous track | 7. Micro USB jack for charging |
| 4. LED status   | 8. Internal Microphone         |

### Charging

Connect the USB cable to micro USB jack

### Powering

Power On: Press and hold on/off button for 0.5 second, the red and blue LED light will be on

Power Off: Press and hold on/off button for 2 seconds until the LED light off

### Pairing

Make sure there is power remaining in the headphone

1. press and hold on/off button for 1 second, the blue and red LEDs will flash alternately, this indicates that the headphone has entered pairing mode.
2. Select "MITHP303" from your Bluetooth device list, once paired, the LED status will show solid blue.

### NFC fast pairing

1. Confirm that your cell phone is NFC-capable.
2. Make sure that NFC is enabled on your cell phone.
3. Turn the headset on.
4. Place the NFC zone of your cell phone against the NFC zone of the headphone.
5. Follow the prompts on your cell phone until it confirms pairing is successful.

### Playing music

When your headphones are paired and connected with a phone, you can play music, answer and hang-up calls by pressing and releasing relevant function buttons.

If you are in an area that does not allow Bluetooth, or if you simply wish to conserve battery power, connect the 3.5mm stereo cable. This requires no battery power, but will deactivate the premium features of the headphone.

If at any time in the future you should need to dispose of this product please note that: Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your local Authority or retailer for recycling advice. (Waste Electrical and Electronic Equipment Directive)

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
