

iMCO Smart Tracker CoBand K4 Quick Start Guide

Introduction

Component Description

How to wear

It's better to wear the band behind Ulnar Styloid and adjust the length of watch band according to your wrist, the sensor should be close to skin.

Band Charging

Please make sure the battery level is full before first use. A low battery will cause shutdown, and you need to charge the tracker for automatic power-on.

How to charge:
Step 1: Take off the tracker by pushing from the back of wrist strap.
Step 2: Insert the tracker into the corresponding charging slot.
Step 3: Plug in the USB cable to a power adapter to charge.

How to Use

In Power-on State

Shutdown interface

On/Off

- ① While powered off, long touch the function key for approx. 5s to turn on the tracker, (you will feel a vibration).
- ② While powered on, long touch the function key for approx. 5s to show the On/Off shutdown interface; select Off by tapping the function key, then long touch again to shut down the tracker.

Operation

- ① Touch the function key to light up the screen or to switch the display page while the tracker is powered on.
- ② The screen will time out after approx. 5s. User can modify the time by connecting phone's APP.
- ③ Long touch the function key will show On/Off options.

Install APP On Phone

Scan the following QR codes, or search "IMCOwear" in APP Store for iOS or search "IMCO" in Google Play Store for Android to download and install IMCO APP.

App Store

Google play

System requirements: 1) Android 4.4 and above, iOS 8.0 and above;
2) Smart phone supports for Bluetooth 4.0.

First time user

User needs to create an iMCO account for first time use of iMCO App. Open iMCO App, follow the on-screen instruction to create an iMCO with a user name, email address and password, fill in basic user info (birthday, weight and height). For step-by-step instructions to set up the account, please check out www.imcotechnology.com/coband-support/

iOS

Android

How to Connect

Before use, connect the App to calibrate, after successfully connecting, the tracker will sync the time automatically.

- Open APP
Click "log in"
↓
Click "Add a Device"(iOS)
/ Click "Band bind" (Android)
↓
Search Bracelet (CoBand K4)
↓
Click to Connect

When tracker connects the phone successfully, the APP will automatically save Bluetooth address. Once opened, the APP will automatically search and connect the tracker. The data of Sports, Sleep and Heart Rate on the tracker will automatically sync with the iMCO app. Seven days of offline data is saved, the sync may take up to 60 seconds. Once completed, "Sync finished" will be shown on the screen.

FAQ

Why does the heart rate measurement take 8 seconds?
This is for more accurate results.

Why must the band be on tight during the heart rate measurement test?
According to Light Reflection Theory, light will reflect to the sensor if there is space between the band and your skin, which can affect accuracy.

Why is there no notification after enabling it?

Android users: Make sure tracker is connected to your phone. Once done, open privileges and allow the device to access Incoming Calls, Messages and Contacts in Settings.

If there is a security APP installed on your phone, add this APP to trusted APP list.

iOS users: If no notification is coming through, reboot the phone and Connect once again.

After, click Pair after the Bluetooth Pairing Request.

Other tips:

1. Please connect tracker with your phone to sync data
2. If the tracker crashes or freezes, check if the phone memory is sufficient. You might want to restart phone and iMCO App, then reconnect the tracker.
3. It takes about 2 seconds to "Tilt to light up the display".
4. Low battery life will display a "I" icon. The "I" and "power icon" will display alternatively while the tracker is charging. The power icon will display after charging.
