二、Product Details

name	Quantity	use
Logistics smart watch	1	According to interface, information interaction
Charging Dock	1	Charging
Charging adapter	1	Use plug with USB line
USB cable	1	Charging connection or computer
Glasses wipe cloth	1	Wipe the touch screen, and keep screen clean
Certificate	1	Equipment factory certification
Warranty Card	1	The use of maintenance
The instructions	1	Device Description

Physical parameters	
weight	85g(Contains the standard battery)
Display	2.2 寸，TFT-LCD，262K color，Resolution 240*320
Touch Panel	Capacitive touch panels
Charging voltage	Direct-current 5V

Audio output	speaker、Bluetooth earphone
Audio Input	High sensitivity MIC
Vibrating alert	support
usage time（With HYCO Ring Scanner）	Continuous work 12 hours
The test conditions	Fully charged (charging 3 hours)
Test standard	Once every 3 seconds laser scanning/data in a timely manner through WiFi upload/display bright brightness (60%)
Performance parameters	
CPU	1.2GHz Dual-core processor
storage	8GB Flash hard disk、1GB RAM
operating system	Android4.3
Special function keys	F1~F6 Customers can customize
interface	USB2.0
Battery	1300mAh@3.7V
Charger	Have
Wearing styles	Alternate left and right hands can use wearable
Radio parameters	
WiFi	802.11b/g/n
Bluetooth	BT4.0、2.1、BLE
Environment	
Operating temperature	-10℃~50℃
Storage temperature	-30℃~70℃
Electrostatic protection grade	15KV
Drop drop performance	Can be free fall under 1.2 meters height for many times, six sides star fell to the cement floor
IP rating	IP54

三、 Main Features Guide

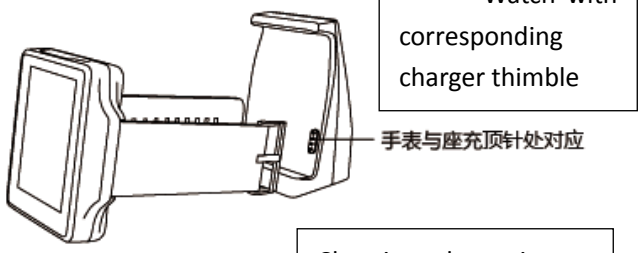
1. How to operation?

Hold down the power button for 3 second switch machine can be performed.

2. How to charge?

Put equipment in charge, to check whether thimble butt up first.

It is recommended to shutdown state of charging. Such as on charge, Such as on charge, press the upper right corner of the screen shows the battery icon.



Watch with corresponding charger thimble

4．Do not use equipment in hot or too cold. High temperature will shorten the service life of electronic devices, damage batteries, plastic components deformation or melt; In cold places, when the product internal temperature, internal will form the moisture, would spoil circuit board.
5．Don't use strong chemicals, detergent and other cleaning equipment.

六、FCC Warnings

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

The SAR limit of USA is 1.6 W/Kg averaged over one gram of tissue. Device types W561 has also been tested against this SAR limit.
The highest SAR value reported under this standard during product certification for use when properly worn on the body is 0.692 W/Kg.

Changes or modifications made to this equipment not expressly approved by (Suzhou Hyco Information Technology Ltd) may void the FCC authorization to operate this equipment.

NOTE: *This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:*

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.
