

## User Manual for BARYON BY1

### Upon receiving the BARYON(s)

1. Open up the packaging and find the quarter-sized BARYON.
2. Twist-open the enclosure.
3. If you find it very hard to open, try using a double-sided tape to fix the flat base to a hard surface, and attach a single-sided tape to the top cap, rotate counter-clock wise. You will be able to open it without a problem.
4. Upon opening the enclosure you will find a CR2032 battery.
5. Take away the CR2032 battery temporarily, and detach the plastic protection tape adhering the negative battery plate.
6. Put the CR2032 battery back.
7. Close the cap with a twisting, clock-wise motion.
8. Twist the cap all the way to the end if you need absolute waterproof. In this case you might need tapes in assisting the opening action.
9. Now your BARYON is up and running

### Using BARYON with the companion app – HEREAPP

After downloading and installing the app from app store,

1. Register for an account.
2. Click the “+” sign on the upper right corner of the first [Status] page
3. Click “Start” on the [New Object] Page
4. Select the BARYON device with the strongest signal, represented by the length of the signal bar.
5. Click “OK”
6. Fill in Object Name, Picture and other information
7. Click “Bind” to finish binding.
8. You have done binding a BARYON to a physical object, click “Status” on the lower menu bar.
9. You should be seeing a green or orange signal bar, representing how close you are to the BARYON
10. Click on the object, click [Sync] button if needed, and you should be seeing the activities, temperatures, and location of the BARYON, with the object name and picture on the top.

**FCC Caution:**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
