

Request for Confidentiality

Date: 29 May 2020

Subject: Confidentiality Request for: 2AJ2A-DLM24GS, 1000B-DLM24GS

Pursuant to FCC 47 CFR 0.457(d) and 0.459 and IC RSP-100, Section 12.4, the applicant requests that a part of the subject FCC application be held confidential.

Type of Confidentiality Requested		Exhibit
<input type="checkbox"/> Short Term	<input checked="" type="checkbox"/> Permanent	Block Diagrams
<input type="checkbox"/> Short Term		External Photos
<input type="checkbox"/> Short Term	<input checked="" type="checkbox"/> Permanent* ¹	Internal Photos
<input type="checkbox"/> Short Term	<input checked="" type="checkbox"/> Permanent	Operation Description/Theory of Operation
<input type="checkbox"/> Short Term	<input checked="" type="checkbox"/> Permanent	Parts List & Placement/BOM
<input type="checkbox"/> Short Term	<input type="checkbox"/> Permanent	Tune-Up Procedure
<input type="checkbox"/> Short Term	<input checked="" type="checkbox"/> Permanent	Schematics
<input type="checkbox"/> Short Term		Test Setup Photos
<input type="checkbox"/> Short Term	<input checked="" type="checkbox"/> Permanent* ³	User's Manual

Intel Corporation has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

Permanent Confidentiality:

The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.

Special Conditions relevant to Internal Photos and Manual

The radio is part of an outdoor drone light show system that follows a strict operating procedure that does not allow anybody to access the radio circuitry. The public is at no time allowed on the airfield and therefore not able to physically reach the radios at all. Repair and maintenance are handled by a dedicated team under intel control. Storage is in non-publicly accessible places.

The outdoor drone light show operation manual is a central part of the actual IP and under NDA. Both hardware and operational processes required to run shows of this magnitude (multiple 1000 drones at a time) are a first of a kind.

Sincerely,

By:

/Product Regulatory Engineer
(Signature/Title²)

Dr. Andreas Gaede-Tsangas
