

# WARNING: CONTAINS MAGNETS MAY AFFECT DEVICES

## **Magnet Warning:**

Avoid placing any media that contains magnets or is sensitive to magnetism near this product. Magnet-sensitive devices, such as laptops, credit cards, or magnetic memory devices can be damaged if they come too close to this product. The magnets in Athena make it possible to lose around metal objects, so take extra care when wearing to prevent loss.

## **Pacemaker Warning:**

The magnets in this Athena device may cause electromagnetic interference when it is near a medical device, such as a pacemaker, medical pump or monitor. If you have a medical device that is implanted or that you wear, please consult your healthcare provider or the manufacturer of your medical device prior to using Athena. Do not carry or use Athena near a medical device until you know that Athena will not interfere with the medical device. ROAR for Good will not be liable for any damage allegedly caused by Athena to any medical device or other device.

---

## IMPORTANT PRODUCT INFORMATION

### **Warranty Information:**

Athena is covered by a Limited Warranty, detailed on the ROAR for Good™ website under #25 at <http://www.roarforgood.com/terms>

### **Environmental Consideration:**

As a certified B-corp, we care about maintaining the environment. If disposal is needed, we recommend your local e-waste center. For more information, please contact your local or regional waste administration.

**Terms & Policies:** Before using Athena, please read the terms of service at <http://www.roarforgood.com/terms> and the Privacy Policy located at <http://www.roarforgood.com/privacy-policy>. These terms and policies are, collectively, the "Agreements." By using your Athena, you agree to be bound by the Agreements.

# FCC STATEMENT

**FCC Statement:** This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**FCC Notice:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This portable transmitter with its antenna complies with FCC/IC RF exposure limits for general population / uncontrolled exposure.

**This device must not be collocated or operating in conjunction with any other antenna or transmitter.**

**FCC Caution:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
