User Manual

Digital Photo Frame

Cautions

Precautions and maintenance

- For indoor use only
- To avoid risk of fire or electric shock, do not expose the unit to moisture or condensation.
- To avoid overheating, do not block the ventilation holes on the back of the Digital Photo Frame.
- Keep the Digital Photo Frame out of direct sunlight.
- Always use the eject buttons on the memory storage card slots to remove the storage cards.
- Do not dismantle the Digital Photo Frame. There is a risk of electric shock and there are no user-serviceable parts inside. Dismantling the Digital Photo Frame will void your warranty.

Cleaning the LCD Screen

- Treat the screen carefully. Because the screen of the Digital Photo Frame is made of glass and it would easily be broken or scratched.
- If fingerprints or dust accumulate on the LCD screen, we recommend using a soft, non-abrasive cloth such as a camera lens cloth to clean the LCD screen.
- Moisten the cleaning cloth with the cleaning solution and apply the cloth to the screen.

> **WARNING:**
>
> Please power off the unit before inserting or removing a card or USB device.
>
> Failure to do so may cause damage to the card/USB and the unit.
>
> To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.

Introduction:

- Thank you for your purchase of the Digital Photo Frame. It is designed to allow quick and easy view of photos taken from your digital camera, mobile phone, or from a memory storage card.
- Please read this User Manual carefully to learn the correct way to use the Digital Photo Frame.

Features:

1. 11.6 inch IPS screen and touch panel.
2. Built-in clock, calendar, weather, alarm,music,video,video call,WIFI.
3. Support viewing pictures in thumbnail mode.
4. Adjustable slide show speed and above 11 kinds of transition slide show.
5. Copy files to Memory and delete files in the USB driver & Memory &Card.
6. OSD Language: English, French, German, Italian,Spanish,Russian,Japanese,Chinese.
7. Sharing photos, videos from Facebook, Twitter, Cloud Photo APP.
8. Support picture slideshow with background music.
9. With Cabinet Lock Hole & the photo frame can hung on the Wall.
10. Built-in stereo speaker and earphone jack.
Packaging Check List:

|		
1.	digital photo frame	1 piece
2.	AC/DC adapter	1 piece
3.	Bracket	1 piece
4.	User manual	1 piece

Contents

1. Product Diagram

1.1 Bottom of the frame

1. Loudspeaker
2. Wall mounted hole
3. On/Off button
4. Bracket hole

1.2 Side Panel

1. SD/SDHC card slot
2. Audio output（3.5mm jack）
3. USB（Type A）
4. Mini USB
5. DC IN

Working Temperature: 0℃~40℃, Humidity: 10-85%

8. Troubleshooting Guide

If you come across when using the photo frame on problems, consult the suggested solutions below, and the corresponding sections of this manual. If you need additional assistance, please contact technical support.

- **No power:**
  Please check whether the AC-Adaptor is inserted correctly.
- **Cannot read the Memory Card or USB-Device:**
  Please confirm there are supported files on your memory card or USB device. Empty devices cannot be read.
- **Cannot play the file:**
  Please confirm if the file format is compatible with the player.
- **Display too bright or too dark:**
  Please adjust the brightness in the setup menu.
- **No sound**
  Please check whether the volume is correct and the player is not in Mute mode.
- **No files after share video or picture to cloud server**
  Please check whether the upload process is completed or not.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement:

The equipment complies with FCC Radiation exposure limits set forth for uncontrolled enviroment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
