

## Meet your new Augie!

Augie is a fun little robot that makes coding easy. You can use pictures to create basic programs for it to complete or put your problem-solving skills, logic, and creativity to the test as you learn about computer programming!

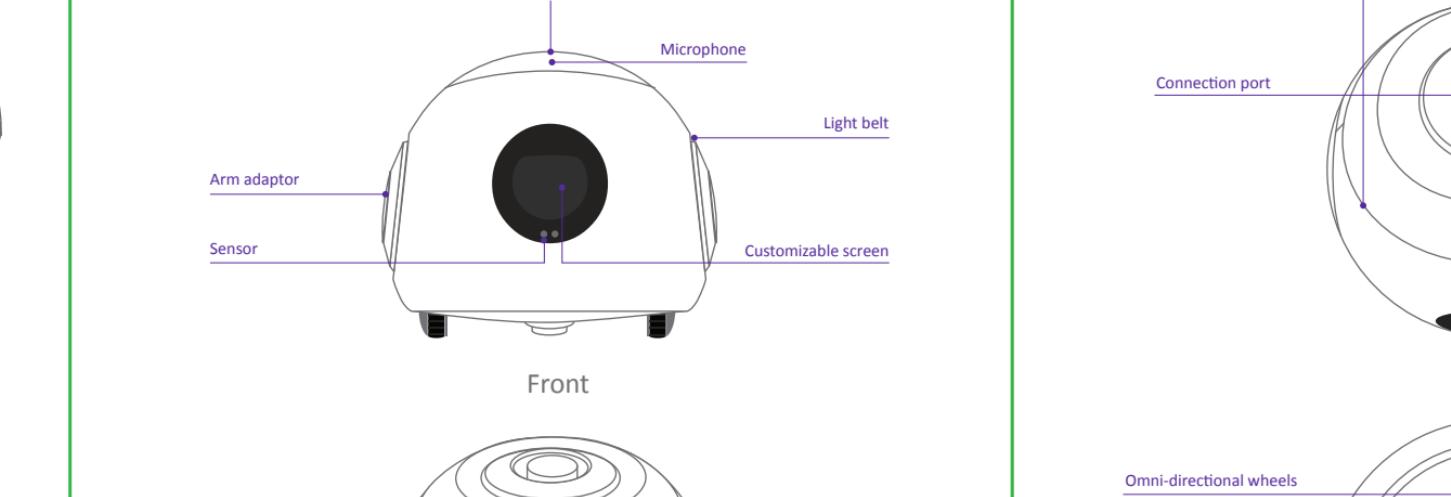

## Package contains

1 Augie  
1 Adapter  
1 Charger

## Product information

Name: Augie  
Product number: PI0005W  
Product dimensions: 5.9 in x 5.9 in x 4.9 in  
Product weight: 1.6 lbs  
System: Linux 3.10  
Processor: Cortex-A8  
Input: 100-240 V, 0.35 A (largest) 50-60 Hz  
Company name: Pai Technology Inc.  
520 Broadway, Second Floor, Santa Monica, CA 90401.

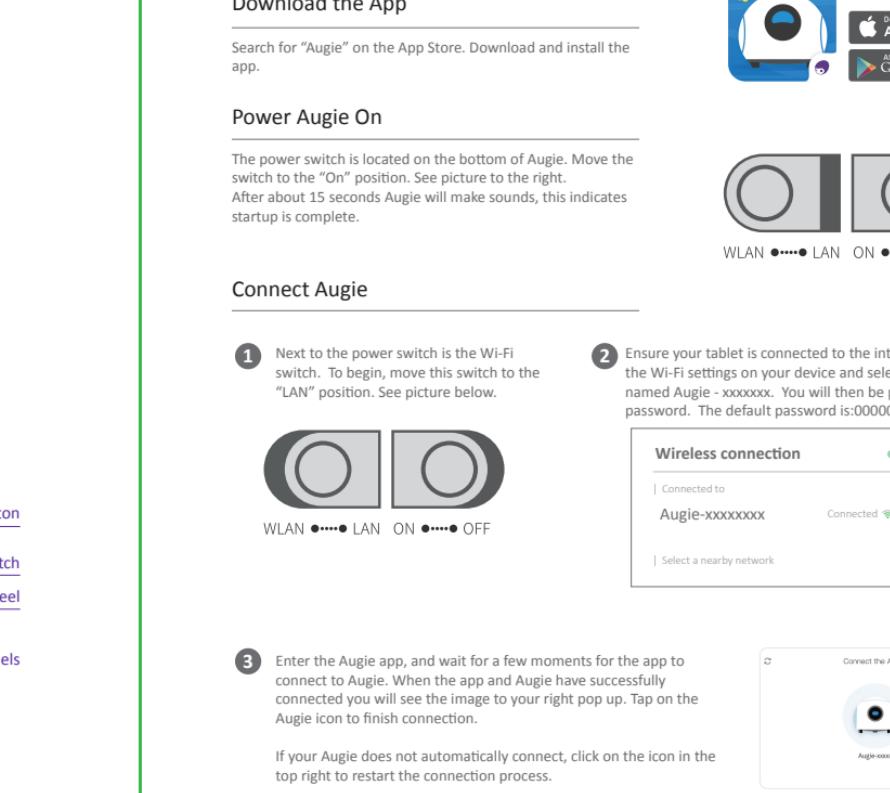

## Augie Info Icons

## Special statuses:

Standby: When Augie hasn't been used for 3 minutes, it will enter standby mode. The screen will change and emit a random sound.  
Sleep: After the device has been on standby for 5 minutes, it will enter sleep mode. The screen and lights will turn off and it will disconnect from the app.  
Waking up: To wake Augie up, cover the front sensors with your hand until the light on the side flashes.

## Product introduction

## Set-Up

### Download the App

Search for "Augie" on the App Store or download it from the Google Play Store.

### Power Augie On

The power switch is located on the bottom of Augie. Move the switch to the "On" position. See picture to the right. After about 15 seconds Augie will make sounds, this indicates startup is complete.

### Connect Augie

1 Next to the power switch is the Wi-Fi switch. To begin, move this switch to the "LAN" position. See picture below.

2 Ensure your tablet is connected to the internet. Then open the Wi-Fi settings on your device and select the Wi-Fi network named Augie-xxxx. You will then be prompted for the password. The default password is: 00000000

3 Enter the Augie app, and wait for a few moments for the app to connect to Augie. When the app and Augie have successfully connected you will see the message "Your Augie is online". Tap on the Augie icon to finish connection.

If your Augie does not automatically connect, click on the icon in the top right to re-start the connection process.

### Quick Start Guide

4 While in Augie mode, open the app's connection settings. In "Connection settings" enter your Wi-Fi account and password to connect, then press save.

5 Locate the Wi-Fi switch on the bottom of Augie, and move it to the "Wi-Fi" position. See below image.

6 Open your device's Wi-Fi settings and connect your device to the network you entered in step 4, and sign in with the picture.

7 Return to the app, repeat step 3.

\* If you wish change the Wi-Fi network that Augie is connected to, please repeat steps 4.

## Limited Warranty information

**Who is covered:**  
This warranty is extended only to the original end-use purchaser or the person receiving the product as a gift, and shall not be extended to any other person or transferee.

**What is covered/For how long:**  
Unless a different warranty period is stated in the Owner's guide provided with your Pai product, for a period of under 1 year for anything that may be incorporated into this product from the date of retail purchase by the original end-use purchaser, Pai warrants that this product, when delivered to you in new condition, in original packaging, from a Pai authorized reseller and used in normal conditions, is free from any defects in manufacturing, materials and workmanship.

**What is not covered:**  
This warranty does not cover defects resulting from improper or unreasonable use or maintenance; failure to follow operating instructions; accident; excess moisture; insects; lightning; power surges; connections to improper voltage supply; unauthorized alteration or modification of original condition; damages caused by inadequate packing or shipping procedures; loss of, damage to or corruption of stored data; damages caused by use with non-Pai products; product that requires modification or adaptation to enable it to operate in any country other than the country for which it was designed, manufactured, approved and/or authorized, or repair of products damaged by these modifications; and products purchased from unauthorized dealers.

**What we will do:**  
During the warranty period, we will, at our sole option, repair or replace (using new or refurbished replacement parts) any defective parts within a reasonable period of time and free of charge.

**What you must do to obtain Limited Warranty Service:**  
Return product, with proof of purchase from an authorized dealer. Please contact Pai Technology at [customerservice@pai.technology](mailto:customerservice@pai.technology) for specific return and shipping instructions.

**Other conditions:**  
The provisions of this limited warranty are in lieu of any other warranty, whether expressed or implied, written or oral, including any warranty of merchantability or fitness for a particular purpose. Pai corporation's maximum liability shall not exceed the actual purchase price paid by you for the product. In no event shall Pai be liable for loss of, damage to or corruption of stored data, or for special, incidental, consequential, or indirect damages howsoever caused including without limitation the replacement of equipment and property, and any costs of recovering, programming or reproducing any program or data stored in or used with your Pai product.

**What is not covered:**  
This warranty is void if the label bearing the serial number has been removed or defaced.

**Other legal rights:**  
This limited warranty gives you specific legal rights, and you also may have other rights that vary from state to state or country to country. Some places do not allow limitations on implied warranties or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

**What we will do:**  
During the warranty period, we will, at our sole option, repair or replace (using new or refurbished replacement parts) any defective parts within a reasonable period of time and free of charge.

## Safety

Regulations, safety, and environment:

**2. Changing the battery**  
When the battery expires, do not dispose of the battery with the household garbage. Please dispose of the battery according to your local laws and regulations.

**3. Factory-sealed battery**  
The battery cannot be easily replaced or removed without affecting the warranty. If the charger is lost, please contact Customer Service at [customerservice@pai.technology](mailto:customerservice@pai.technology). Replacing the battery with a non-compliant one could void the user's authority to operate the equipment.

**4. Electromagnetic compatibility statement**  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

**5. Replacing the battery**  
This product must be used under direct supervision by adults. Please comply with the terms of the warranty to prolong the product's life. If the product comes in contact with liquid or other debris, please wipe it away immediately.

**1. Safe usage**  
This product must be used under direct supervision by adults. Please comply with the terms of the warranty to prolong the product's life. If the product comes in contact with liquid or other debris, please wipe it away immediately.

**6. Power cable**  
This transmitter must not be located or operating in conjunction with any other antenna or transmitter. Plug the power cord into an AC outlet that can be pulled out at any time. If the power cord is equipped with a 3-pronged plug, plug the power cord into a grounded 3-hole socket. Do not attempt to unplug the ground pin on the power cord, as this is an important safety role.

**7. FCC ID: 2A96J005 W**  
This transmitter must not be located or operating in conjunction with any other antenna or transmitter. Plug the power cord into an AC outlet that can be pulled out at any time. If the power cord is equipped with a 3-pronged plug, plug the power cord into a grounded 3-hole socket. Do not attempt to unplug the ground pin on the power cord, as this is an important safety role.

**8. Safety**  
located on the underside of your product, or in some other visible location.

## FCC Compliance Statement

Regulations, safety, and environment:

**9. FCC ID: 2A96J005 W**  
This device complies with part 15 of the FCC rules. Operations is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**10. Safety**  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

**11. Safety**  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

**12. Safety**
