

TWS WIRELESS EARBUDS

USER MANUAL

Item No.: CPP-6954

FUNCTIONS

TURNING ON/OFF EARBUDS

1. After charging the case, lift the earbuds out and the power is automatically turned ON. You will see the orange and white LED flashing.
2. To turn OFF, place earbuds into the case until they click into place, the earbuds turn OFF and disconnect with your mobile device.
3. To turn the earbuds OFF outside of the case, touch the control panel on either earbud and hold it for 5 seconds, this earbud will turn OFF and follow the same step to turn OFF the other earbud.
4. To turn ON only a single earbud, touch the control panel on either earbud and hold it for 5 seconds. Follow the same step to turn ON the other earbud, then they will be connected automatically.

PAIRING BOTH EARBUDS

The True Wireless Technology (TWS) enables you to use two earbuds paired via Bluetooth® to create a wireless dual-channel system to deliver a true stereo sound effect.

1. Lift the earbuds out of the case to activate power. You will hear sound notice and see the orange and white LED fast flashing on both earbuds. Both earbuds will be connected automatically in 5 seconds, and orange and white LED slow flashing on one earbuds as it waits to pair with your device.
2. Enable Bluetooth® on your mobile device, select "earbuds" from the list of available Bluetooth® devices. You will hear sound confirmation notice and the orange & white LED on earbud turns OFF. The streaming music will be played simultaneously on both earbuds. Earbuds will automatically pair if they have already been paired to the same device. You only need to lift the earbuds out from the case and connection will be automatic.

PAIRING ONE EARBUD

Lift one earbud out of the case to activate power, wait until you see the orange and white LED flashing, select and connect "earbuds" from the list of available Bluetooth® devices. You will hear confirmation sound and the orange & white LED turns OFF.

If you lift the other earbud out of the case, two earbuds will be automatically connected and the streaming music will be played simultaneously on both earbuds.

LISTENING TO MUSIC

1. After you successfully connect to your Bluetooth® device, select music to play. Touch once on the control panel of either earbud will pause your music. Touch again to resume play.
2. Triple-press the touch control panel of left earbud to skip to the previous song.
3. Triple-press the touch control panel of right earbud to skip to the next song.
4. Double-press the touch control panel of left or right earbud to turn down or turn up the volume.

ANSWER / END / REJECT CALLS

1. Be sure the earbuds are connected to your mobile phone, and then you can answer / end / reject calls.
2. If you choose to use only one earbud, either one is capable of receiving calls, since each has its own built-in mic.
3. Answer incoming calls or end call by touch the control panel quickly one time. Touch and hold the control panel for 2 seconds to reject incoming calls.
