BRIEF INTRODUCTION

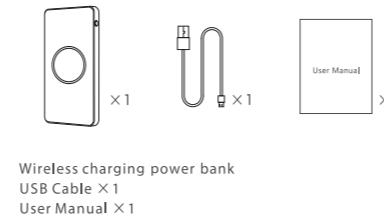

This portable wireless & wired power bank combines two features as an important accessory to your smart phone. You can use the power bank to charge for phones normally through USB cable or if you have a Qi standard wireless technology built-in smart phone or a receiver case/sticker, then you will be able to place your phone on top of the power bank to charge for your phone without plugging a wire into your phone. (Note: Qi is a wireless charging standard developed by Wireless Power Consortium.) When you use the wireless charging function, your devices must be Qi standard. Some applicable devices which can be charged through Qi standard are shown as below:

1. Devices with built-in wireless charging receiver (Samsung Galaxy S6, S6 Edge, Note5, S6 Edge+, S7, S7 Edge; Nokia Lumia 1520,1020, 929, 928, 920, 830, 820; LG D11, LTE2, G2, G3, G4; Google Nexus 7, 5, 4; HTC Incredible 4G LTE, 8X, 8XT, Droid DNA; Moto X Pro, and more)
2. Devices with reserved wireless charging interface beside it's battery (Samsung Galaxy S3, S4, S5, Note 3, Note4, etc.)
3. Devices with wireless charging receiver in it's protection case (iPhone5/5s, iPhone6, iPhone6 Plus, etc.)

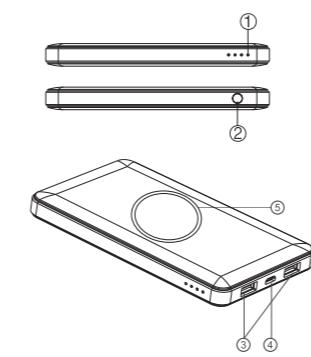

SPECIFICATION

Battery Type	polymer battery
Battery Capacity	8000mAh
Input	DC 5V/1A
Output	DC 5V/2.1A(Max)
Wireless Output	DC 5V/1.5A
Dimensions	L139*W81*H14mm

4. Micro USB Input
5. Wireless Charging Area

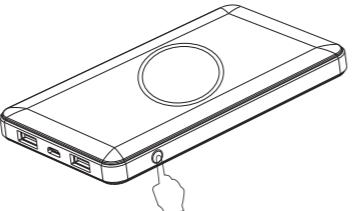

CHARGE THE POWER BANK

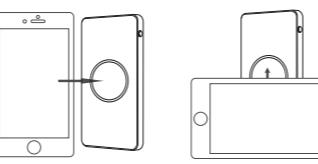

- ① Connect one end of the USB cable to the input interface.
- ② Connect the other end of the USB cable to power adaptor (not included).
- ③ Insert power adaptor into power socket.

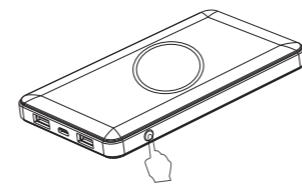

2. Press the output switch, it will start charging your devices.

1. Place your phone on the center of the cross icon. Make sure the phone is well located at the wireless charging area shown as below:

2. Press the output switch, it will start charging your smart phone.

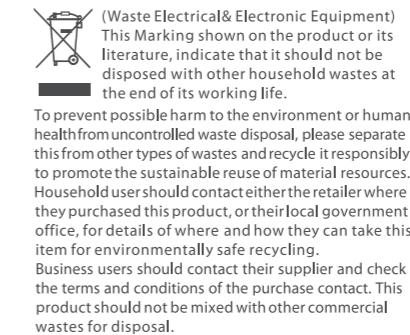

3. Press the output switch to turn off the wireless charging function, the power indicator light will go out.

CAUTIONS & WARNINGS

1. Do not squeeze or collide this product.
2. Do not disassemble, repair or modify this product without approval.
3. Please keep this product away from fire or other heat sources and liquid to avoid short circuit, leakage and other risk.
4. Do not use this product in severe hot, humid or corrosive environments to avoid circuit damage and occurring leakage phenomenon.
5. The ambient temperature shall be kept between 0°C and 45°C.
6. Do not place this product close to magnetic or chip card (ID card, bank card, etc) to avoid magnetic failure.
7. Please keep a distance of 20cm between the power bank and implantable medical devices(cardiac pacemakers, implantable cochlea, etc.) to avoid potential interference to the medical device.
8. Please keep children away from this product to avoid accident.
9. If you need to clean the power bank, please make sure that it is not connected to power supply.

CORRECT DISPOSAL OF THIS PRODUCT

FCC Warning Statement
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
