Side View

To activate the battery before first time use, please fully charge the PEGASI glasses with the USB cable.

Getting Started

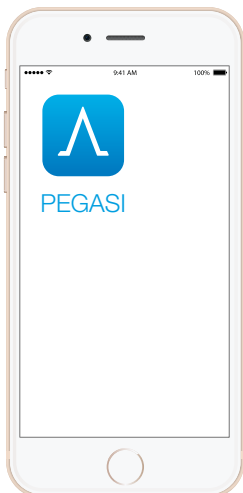

- Put on the PEGASI glasses.
- When off, **double tap** the On/Off Touch Panel to turn on the PEGASI glasses (Light gradually up).
- When on, **double tap** the On/Off Touch Panel to turn off the PEGASI glasses (Light off).

- Please keep eyes open when using the PEGASI glasses.
- PEGASI glasses cannot be turned on when charging.
- The preset sleep quality improving protocol of PEGASI glasses will last for a specific duration (typically 24 mins), and the device will automatically turn off when the protocol ends. To ensure the best result, it is not recommended for users to break the protocol in any circumstances.

Downloading App

For more information and instructions, please search for “PEGASI” in Google Play or in Apple's App Store, or scan the QR code below to download and install the App.

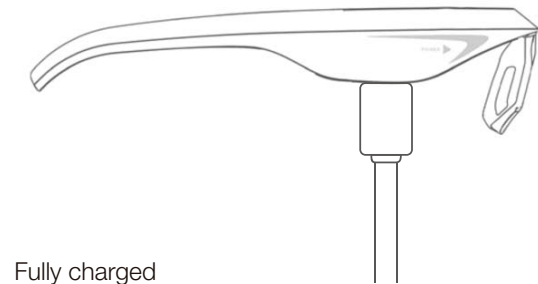

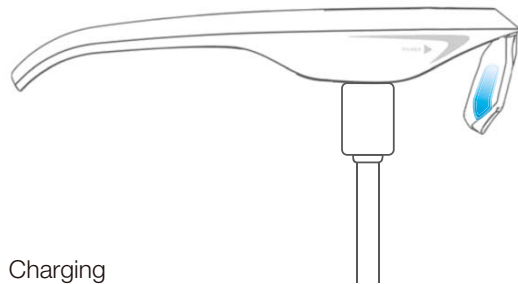

Connecting PEGASI with App

Tap the On/Off Touch Panel once to activate Bluetooth broadcasting of the PEGASI glasses before connecting it to the App, or follow the instructions on the App.

Charging and Battery Level Indications

- The illuminant module will continuously flash as a breathing light when charging and will stop flashing when fully charged .

- When battery low, the illuminant module will **flash quickly** to remind user for charging.
- A full charging process will take appr. 70 mins.
- If the battery level is below the protective threshold, the device will enter a deep sleep mode and will not respond to any user actions. In this case, the device needs to go through a full charging process before using again.
- Accurate battery level can be read from the App.

Technical Specifications

Model: PG16K02

Input Voltage: DC 5.0V

Material: PC+ABS

Input Current: 1000mA

Color: Nero Nemesis

Connection: Bluetooth 4.0

Battery Capacity: 250mAh

Battery Type: Lithium-ion polymer battery

Declaration of Hazardous Substances

Part	Hazardous Substances					
	Lead Pb	Mercury Hg	Cadmium Cd	Hexavalent chromium Cr(VI)	Polybrominated biphenyl PBB	Polybrominated diphenyl ethers PBDE
Main Body	○	○	○	○	○	○
Battery	×	○	○	○	○	○
USB Cable	○	○	○	○	○	○
Charger	○	○	○	○	○	○

The table is compiled according to the regulations of SJ/T 11364.

- : Indicates the amount of that hazardous substance in all homogeneous material of the specific part is below the limitation.
- × : Indicates the amount of that hazardous substance in at least one of the homogeneous material of the specific part is above the limitation.

The digit in this label indicates that the product can be used without causing any environmental hazard for 10 years.

Product Warranty

According to the *Law of the People's Republic of China on the Protection of Consumer Rights and Interests* and the *Law of the People's Republic of China on Product Quality*, the following after-sale services are offered:
