

WIRELESS ANDROID AUTO® ADAPTER

MODEL: WLQ1

User Guide

DESCRIPTION:

WiLinq is a plug-and-play device that converts wired Android Auto to wireless.

REQUIREMENTS:

1. Smartphone with Android operating system, at least Android 9 OS.
2. Android Auto capable car stereo.

PACKAGE:

1. WiLinq wireless adapter.
2. USB A to USB C cable.

SETUP:

1. Connect your phone to the stereo via wired Android Auto.
2. Disconnect your phone and attach WiLinq to the stereo via USB using **provided short USB cable. Do not use any other USB cables to avoid stability issues.** Attach USB Type C connector of the provided cable to WiLinq and regular USB (USB A) connector to the stereo. You may use USB A port on WiLinq for fast charging while in wireless Android Auto.
3. Pair and connect your phone to WiLinq via Bluetooth and start using Android Auto wireless.

REGULATORY COMPLIANCE:

MODEL: WLQ1

Manufactured by GROM Audio, www.gromaudio.com, email: info@gromaudio.com

Compliant with FCC requirements, FCC ID: 2AJFZ-ROXW

Android Auto is the registered trademark of Google, Inc.

FCC Statement:

This device complies with part 15 of FCC rules. Operation is subject to the following two conditions:

- 1. This device may not cause harmful interference.*
- 2. This device must accept any interference received, including interference that may cause undesired operation.*

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated within a minimum distance of 20 cm between the radiator and your body
