This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment is approved for Class I, Division 2, Groups ABCD hazardous locations.

A rectangular metal plate, likely aluminum, with rounded corners. It features several mounting holes: two on the left side, two on the right side, and four along the bottom edge. A USB Type-C port is located on the right side, recessed into the plate. A red rectangular label is positioned on the left side of the plate.
