Date: 8-23-16

To: Hill-Rom Services Private Limited  
1 Yishun Avenue 7  
Singapore 768923

Attention: Whom It May Concerns

Subject: Permission to request of using the original RF module filing documents FCC ID: SQGBT900

On request from Hill-Rom Services Private Limited, We, **Laird Technologies** hereby permit the use of **Laird Technologies**'s FCC ID: SQGBT900 original module filing documents to Hill-Rom Services Private Limited for Hill-Rom Services Private Limited's new FCC ID authorization application as follows.

Original FCC ID: SQGBT900

Grant date: 06-04-2014

Granted company to use the original module FCC filing: Hill-Rom Services Private Limited

Although we, **Laird Technologies** permit the use of above mentioned FCC certified transmitter module filing document to host manufacturer Hill-Rom Services Private Limited's new FCC authorization, it is Hill-Rom Services Private Limited's responsibility for full compliance to all applicable Commission's rules for the host equipment new grant.

The Hill-Rom Services Private Limited must follow all the engineering and operations guidelines as specified by the original grantee, **Laird Technologies**.

If you have any questions on this authorization, please feel free to contact us at the address shown in below

Sincerely,

A handwritten signature in black ink, appearing to read 'Bill Steinike', is written over a dashed line.

(Signature of responsible person in Laird Technologies company)

(Printed name of responsible person in Laird Technologies company / position)
