

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT (Electronic Under Test) device. The top half shows the black plastic housing with a circular cutout for a lens. The bottom half shows the green printed circuit board (PCB) populated with various electronic components, including a large silver heat sink, a black integrated circuit, and several smaller components. A black battery is placed to the right of the PCB. A black ruler with white markings is positioned vertically on the left side of the components for scale.
Solder Board-Component View 1	 A close-up photograph of a small, blue printed circuit board (PCB) component. The component is L-shaped and features a large silver heat sink, a black integrated circuit, and several smaller components. It is soldered onto a larger board. A black ruler with white markings is positioned vertically on the left side of the component for scale.

Solder Board-Component View 2	 A photograph of a blue printed circuit board (PCB) component, labeled 'Solder Board-Component View 2'. The component is L-shaped and features various electronic components, including a large silver rectangular component on the right side. It is positioned against a black background with a white ruler for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The component is placed on a blue textured surface.
Solder Board-Component View 3	 A photograph of the same blue printed circuit board (PCB) component, labeled 'Solder Board-Component View 3'. This view shows the component from a slightly different angle, highlighting the solder joints and the placement of components. It is positioned against a black background with a white ruler for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The component is placed on a blue textured surface.
