

Solder Board-Component View 10	 A photograph of a green printed circuit board (PCB) assembly. The board is populated with various electronic components, including integrated circuits, capacitors, and resistors. A large, central component is labeled 'SK hynix' and 'H9HP52ALP000'. The board is mounted on a blue textured surface.
Solder Board-Component View 11	 A photograph of a green printed circuit board (PCB) assembly, similar to the one in View 10. The board is populated with various electronic components, including integrated circuits, capacitors, and resistors. A large, central component is labeled 'SK hynix' and 'H9HP52ALP000'. The board is mounted on a blue textured surface. A black ruler with white markings is placed below the board, showing measurements in millimeters (mm) and centimeters (cm).

Solder Board-Component View 12	 A photograph of a small green printed circuit board (PCB) component, likely a SIM card reader or antenna, placed on a blue textured surface. The component is rectangular with several gold-colored solder points along its edges. It is positioned next to a black ruler with white markings. The ruler has two scales: a vertical scale on the left showing 10, 20, 30, 40, and 50 mm, and a horizontal scale at the bottom showing 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 mm.
Solder Board-Component View 13	 A photograph of a small green printed circuit board (PCB) component, similar to the one in View 12, but with two SIM card slots visible. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler has a vertical scale on the left showing 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 mm, and a horizontal scale at the bottom showing 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 mm.
