Dear Sir/Madam,
The product SEED-10IA-01 display screen,model:SEED-10IA-01,Series Model:SEED-10IA-01(L)
FCC ID: 2AJONSEED-10IA-01 uses module EC20-CEFA-MINIPCIE which can support LTE FDD/TDD,
WCDMA, GSM functions. But this product only activates LTE band 5/41 , the other bands and
functions have been shielded by the manufactures using the software .
For 5G WIFI
The module AP6234 support 5G Wi-Fi Band1(5150-5250MHz),Band2(5250-5350MHz),
Band3(5470-5725MHz),Band4(5725-5850MHz).But for the product, it only activates
Band1 and band 4,The other band have been shielded by the manufactures using the
software, the customer cannot modify it.

Sincerely,
