Statement

We HMD global Oy, hereby declare that the devices with
FCC ID: 2AJOTTA-1084,

They can be capable of operating on all frequencies in the frequency bands 1710-1780 MHz and 2110-2180 MHz under the control of a base station. In addition this solution is controlled by Qualcomm chipset. Qualcomm confirmed that this device will work in conjunction or under control with base stations only, i.e. without network, the device won't be able to operate in this band.

For FCC, AWS licensees in the 1755-1780 MHz band must provide and maintain a point of contact at all times so that immediate contact can be made should interference against protected Federal operations occur.
