Limited Warranty

What is Covered.

Except as stated below, this product is warranted to the original end-user buyer against any defects in material and workmanship that arise as a result of normal and reasonable use of the product. This warranty is not transferable to anyone who subsequently purchases, leases or otherwise obtains the product from the original end-user buyer.

How long the warranty lasts.

The product is warranted for one year from the original end-user's product purchase date as shown on the product warranty card or on other written proof of the original end-user's product purchase date or for one year from the date of manufacture of the product if no written proof of the original end-user's product purchase date can be provided.

What is not covered.

This warranty covers only defects in materials or workmanship arising as a result of normal and reasonable use of the product and does not cover any other problems, including those that arise from: (i) improper maintenance or modification; (ii) use of software, media, parts or supplies not provided by HiMirror; (iii) operation of the product outside the product's specifications; or (iv) unauthorised modification or misuse of the product. No warranty is given with respect to any consumables attached to or provided with the product (including but not limited to carton, packing materials, power adapter, manuals, bracket, mounting accessories). HiMirror does not perform warranty services outside of the region where you purchased the product.

What HiMirror will do.

In the event a product defect is covered by this warranty, HiMirror will repair or replace the product at no charge to the end-user, other than any shipping charges as stated below.

How to get service.

If warranty service is needed, please contact our official website at www.himirror.com/support. In order to receive warranty service, you must provide the product name, serial number and date of purchase. If the product is eligible for warranty service, you will receive a Return Merchandise Authorisation (RMA) number and the address of the service centre to which the product should be shipped for warranty service. When you receive an RMA number, you must send the product to the specified service centre with the RMA number printed on the shipping label or on the shipping carton. An RMA number is required before you send the product for warranty service. If you fail to include an RMA number on the shipping label or the shipping carton, any repair or replacement of the product could be delayed.

Payment for shipping costs.

The end-user is responsible for the costs of shipping the product to the assigned service centre for warranty service. If an end-user submits a product for warranty service within the warranty period, the product has a product defect covered by this warranty, and the end-user is located within the service area, HiMirror will be responsible for the costs of shipping the repaired or replacement product to the end-user. In all other cases, the end-user is responsible for the costs of shipping the product back to HiMirror. HiMirror ordinarily uses ground shipping for the return of a product to the end-user after any warranty service. If an end-user requests that the product be returned by an alternative method of shipment, and HiMirror agrees to the alternative method, the end-user is responsible for the costs of shipment by the alternative method.

When providing any warranty service, HiMirror reserves the right to repair the product with materials and parts selected by HiMirror or to replace the product with another product of the same kind, at the option of HiMirror. Any replacement product may be new, refurbished or used, provided that the replacement product has functionality at least equal to that of the product being replaced. After any repair or replacement, the original warranty period will continue from the end-user's purchase date without extension or renewal.
