Game quality

divided into high-definition, scan line, fast, dot matrix. Different options will present different screen filter display effects.

Game streaming

First, make sure that the game console and the computer are under the same WIFI. Select Settings-> moonlight in the main interface. Enter the IP address of the computer to start pairing. Enter the PIN code to pair successfully and select Connect. During streaming, press menu+START to exit streaming.

Bluetooth Settings

First, select Settings->Bluetooth Settings in the main interface, select Enable Bluetooth, and press the X key to scan for devices in the Search device. Finally, select the controller you want to connect according to the device name.

1.Main interface operation

Main Interface Menu:

1	Game Rooms	After entering, you can choose "Internal Card" or "External Card". And select the game platform to play the game.
2	RA Emulator	After entering, you can choose "Internal Card" or "External Card". And select the game platform to play the game.
3	Favorites	Press the START button in the game center to collect the game, and the game will appear in this section.
4	History	The run game will appear in this section. History can be cleared in settings.
5	Search	Quickly search games from memory cards. The X key deletes the keyword and the Y key confirms the search result.
6	Application Center	Including video player, music player, e-book, file manager, expert mode.
7	Settings	Contains all settings for the RG35XXSP. Including language settings, backlight settings, background settings, etc.

6.Indicator light and charging function

The packaging of the machine is matched with a 5V/1.5A four-lines charging data cable. Plug in the charging cable and the machine will start charging.

RG35XXSP has two indicators, the down is the charging indicator, and the Up is the working indicator.

The following light color and status table:

Green light	Working
Red light	Low power
Yellow light	Charging

- Note down the IP addresses of the two consoles by going to NETWORK SETTINGS->IP ADDRESS
- In the RetroArch, enter the same game and call out the menu through the menu
- Set it up with the following steps:
 - Game console A (host)
 - Select Netplay->Host->Start Netplay Host
 - Game console B (slave)
 - Select Netplay->Connect to Netplay Host, enter the IP address and press the START button to connect successfully

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
