

Aconic Animal Speakers

Introducing the Aconic Animal Speakers. The portable speaker is compatible with any Bluetooth enabled device. Works great with Iphone, Galaxy and Android phones. The convenient buttons for music and call controls makes it easy to use whether your in the shower, at the pool, or on the go.

- ① Power On/Off
- ② Answer calls
- ③ Volume - / Previous
- ④ Volume + / Next
- ⑤ Play/ Pause

CHARGING

Before first use, it is recommended that you charge your wireless speaker for a minimum of 1 hour. Connect the supplied Micro USB charging cable to the Micro USB port on the bottom of the Bluetooth® Speaker (this is covered by a rubber seal). Connect the other end to a spare USB port on your laptop, computer or USB wall charger (not included).

PAIRING

While the wireless speaker is off, press and hold the power button down for 3-4 seconds, the speaker will turn on and enter pairing mode automatically accompanied by the prompt. Activate the Bluetooth® feature on your smartphone. Search for the device "Aconic AS30" and pair as per your smartphone's instruction. When the wireless speaker is successfully paired with your device the speaker will give an audio cue. Your smartphone will remember pairing with the speaker for future use.

PLAY MUSIC

Start audio playback on your phone or MP3 player. Control the volume and track playback using the control pad located on the back of the wireless speaker. To increase/decrease the volume, hold down the "I<<" or ">>I" buttons. To skip songs short press the "I<<" or ">>I" buttons. To pause music short press the "II".

PHONE CALLS

Short press the "☎" while the phone is ringing to answer an incoming call;
Short press the "☎" to end the call;
Long press the "☎" while the phone is ringing to reject an incoming call;
Short press the "☎" twice to dial your last number called.

FCC Statement

This device complies with part 15 of the FCC Rules Operation.It is subject to the following two conditions:

- 1.This device may not cause harmful interference.
- 2.This device must accept any interference that is received, including any interference that may cause an undesired operation

Remark:The maximum ambient temperature for the battery is -10~40 degrees.

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or change to this equipment. Such modifications or change could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment.

This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
